AIR RESOURCES BOARD

EXECUTIVE ORDER H3-23-025

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Albert Chung

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Albert Chung is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 13, 2023.

EXECUTIVE ORDER H3-23-024

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Stephanie Chuang

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Stephanie Chuang is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 13, 2023.

EXECUTIVE ORDER H3-22-137

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Samantha Adams

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Samantha Adams is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-109

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Divya Agarwal

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Divya Agarwal is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Evelyn Beebe is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-010

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Michael Bell

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Michael Bell is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

David Bennett

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that David Bennett is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Christian Conway is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-019

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Irra Core

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Irra Core is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-22-124

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Ann Duke

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Ann Duke is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-125

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Qiuxia (Amanda) Dun

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Qiuxia (Amanda) Dun is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Robert Earley

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Robert Earley is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Jesse Frederick is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-131

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Michelle Fremming

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Michelle Fremming is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

EXECUTIVE ORDER H3-22-132

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Miguel Freyermuth

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Miguel Freyermuth is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-22-041

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Love Goyal

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Love Goyal is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-136

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Brian Graham

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Brian Graham is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-042

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

James Groome

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);
NOW, THEREFORE, IT IS ORDERED, that James Groome is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Derek Holmstead

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Derek Holmstead is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-049

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Robert Holzhauer

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Robert Holzhauer is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Petroleum-Based Fuel Reports and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Charles Lee is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-057

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Nancy-Jeanne LeFevre

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Nancy-Jeanne LeFevre is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

EXECUTIVE ORDER H3-22-064

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Michael Martin

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Michael Martin is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

EXECUTIVE ORDER H3-22-157

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Ranjan Parajuli

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Ranjan Parajuli is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Jenny Reinman is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Michael Schuppenhauer is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Steve Schwarzbach

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Steve Schwarzbach is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Petroleum-Based Fuel Reports and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Brandon Sparks

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Brandon Sparks is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Patrick Splichal

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Patrick Splichal is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Joseph Steirer

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Joseph Steirer is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Petroleum-Based Fuel Reports and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

EXECUTIVE ORDER H3-22-104

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Nancy A. Wellhausen

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);
NOW, THEREFORE, IT IS ORDERED, that Nancy A. Wellhausen is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 13, 2023.

EXECUTIVE ORDER H3-22-179

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Emily Wen

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Emily Wen is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Eileen Loomis

Whereas, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

Whereas, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

Whereas, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

Whereas, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

Whereas, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

Now, Therefore, It Is Ordered, that Eileen Loomis is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

Be It Further Ordered, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December, 9, 2022.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-161

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Andrea Adams

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Andrea Adams is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 9, 2020.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-152

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Ada Carson

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that Ada Carson is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 9, 2020.

EXECUTIVE ORDER H3-20-218

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Otavio Cavalett

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Otavio Cavalett is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 6, 2021.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-211

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Christina Chen

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Christina Chen is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 6, 2021.

EXECUTIVE ORDER H3-20-172

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Hui Cheng

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Hui Cheng is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 9, 2020.

EXECUTIVE ORDER H3-20-215

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Brian Cherrier

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Brian Cherrier is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Cindy Feng

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Cindy Feng is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 9, 2020.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-055

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Brittany Ferguson

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Brittany Ferguson is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 16, 2020.

EXECUTIVE ORDER H3-20-056

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Esteban Flego

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Esteban Flego is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-071

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Michelle Hirst

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Michelle Hirst is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 16, 2020.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-223

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Christina Hyland

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Christina Hyland is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 6, 2021.

EXECUTIVE ORDER H3-20-077

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Hyo Joon (Henry) Kim

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Hyo Joon (Henry) Kim is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 16, 2020.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Ihab Issa

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Ihab Issa is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-188

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Corey Luth

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Corey Luth is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 9, 2020.

EXECUTIVE ORDER H3-20-232

Relating to the Accreditation as a Non-Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Timothy Maneely

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

NOW, THEREFORE, IT IS ORDERED, that Timothy Maneely is accredited to conduct LCFS verification services as a LCFS Verifier (Non-Lead), for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 28, 2020.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Jennifer Marchek

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Jennifer Marchek is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

EXECUTIVE ORDER H3-20-168

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Barbara Toole O'Neil

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Barbara Toole O'Neil is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Adriana Ortolani

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Adriana Ortolani is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement, pursuant to section 95502(c)(5), for accreditation under the Mandatory GHG Reporting Regulation (MRR) as an oil and gas systems specialist to lead verification services for Petroleum-Based Fuel Reports: Quarterly Fuels Transactions Reports submitted by producers and importers of gasoline or diesel, Crude Oil Quarterly and Annual Volumes Reports, and Project Reports as listed in section 95500(e);

NOW, THEREFORE, IT IS ORDERED, that John Shideler is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways, Alternative Fuel Transactions, and Petroleum-Based Fuel Reports, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 16, 2020.

EXECUTIVE ORDER H3-20-129

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Virginia Smith

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Virginia Smith is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Catharine Weber

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Catharine Weber is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on January 16, 2020.

AIR RESOURCES BOARD

EXECUTIVE ORDER H3-20-233

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Trevor Yorke

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

NOW, THEREFORE, IT IS ORDERED, that Trevor Yorke is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 28, 2020.

EXECUTIVE ORDER H3-20-169

Relating to the Accreditation as a Lead Verifier of Low Carbon Fuel Standard (LCFS) Data Reports Pursuant to Section 95502 Title 17, California Code of Regulations

Wes Younger

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the LCFS program contained in sections 95480-95503, title 17, California Code of Regulations;

WHEREAS, the LCFS program requires the use of independent verifiers for verification of LCFS data reports and establishes requirements for the accreditation of verification bodies and individual verifiers by CARB;

WHEREAS, the Executive Officer has determined that the verifier meets the LCFS verifier accreditation requirements in sections 95502(c)(1) through (2) and has met, as applicable, the training and exam requirements in section 95502(a) and (c)(3)(G);

WHEREAS, the Executive Officer has determined that the verifier meets the lead verifier requirements in section 95502(c)(3);

WHEREAS, the Executive Officer has determined that the verifier meets the additional lead verifier requirement for experience in alternative fuel production technology and process engineering, pursuant to section 95502(c)(4), to lead validation of Fuel Pathway Applications and verification of Fuel Pathway Reports;

NOW, THEREFORE, IT IS ORDERED, that Wes Younger is accredited to conduct LCFS verification services as a Lead LCFS Verifier for Fuel Pathways and Alternative Fuel Transactions, for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or regulated entity for each verification performed, and must provide verification services as specified in sections 95500-95503, title 17, California Code of Regulations.
2. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95503, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95502(a) that incorporates by reference MRR section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 9, 2020.
