

# Workshop to Discuss Proposed Adoption of a Schedule of Certification Fees for Aftermarket Parts, Retrofits, and Emissions Related Components

## Invitation to Participate

---

The California Air Resources Board (CARB) invites you to participate in a public workshop on February 20, 2020, to discuss proposed adoption of a schedule of certification fees for emissions-related aftermarket parts, retrofits, and related components. This workshop is directed towards the aftermarket parts, retrofit, and emissions related parts industry. These manufacturers receive the following Executive Orders (EOs).

- AB-series EOs, At-Berth Regulation Alternative Control Technology Verification/Approvals
- B-series EOs, Alternative Fuel Retrofit Certifications
- C-series EOs, Experimental Permits
- D-series EOs, Aftermarket Parts Exemptions
- DE-series EOs, Verification Of Diesel Emission Control Strategies, e.g., On/Off Road, SS, Harbor Craft, TRU, RTG
- G-series EOs, Portable Fuel Containers
- K-series EOs, Aftermarket Critical Emission Control Parts For Highway Motorcycles
- Q-series EOs, Evaporative Components For Small Off-Road Engine Equipment
- RM-series EOs, Evaporative Components For Spark-Ignition Marine Water Craft

## [More Information](#)

The workshop will be held at the time and place shown below. You may participate in person or through webinar and conference call.

DATE: Thursday, February 20, 2020  
TIME: 1:00 PM – 4:00 PM, Pacific Standard Time  
LOCATION: California Air Resources Board  
Annex 4 Auditorium  
9530 Telstar Avenue  
El Monte, California 91731

If you plan on participating by webinar and conference call, please register for the Certification Fee for Aftermarket Parts, Retrofits, and Components workshop through the link below. After registering, you will receive a confirmation email containing information about joining the webinar.

## [Registration](#)

Registration is not required for those attending the workshop in person.

---

### **Background**

Historically, only about one third of the products certified by CARB have been assessed a certification fee. Effective June 27, 2018, new legislation passed by the California legislature and signed by the Governor (SB 854) allows CARB to adopt a schedule of fees for off-road or nonvehicular engines and equipment, aftermarket parts, and emissions control components sold in the state. This workshop is part of the regulatory development process to establish the fees and process. Your participation is welcome.

### **Special Accommodation Request**

Consistent with California Government Code Section 7296.2, special accommodation or language needs may be provided for any of the following:

- An interpreter to be available at the meeting;

- Documents made available in an alternate format or another language;
- A disability-related reasonable accommodation.

To request these special accommodations or language needs, please contact [Bonnie Garlow](#) at (626) 575-6918 as soon as possible, but no later than 7 business days before the workshop. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

## Contact

For questions regarding the workshop or the development of the Mobile Source Certification and Compliance fee process, please contact [Kathleen Mead](#), Air Pollution Specialist, at (916) 324-9550.

### CLEARING CALIFORNIA SKIES FOR 50 YEARS

CARB is the lead agency for California's fight against climate change, and oversees all air pollution control efforts in the state to attain and maintain health-based air quality standards. Learn more at [www.arb.ca.gov](http://www.arb.ca.gov).
