Subpart E - Standards of Performance for Incinerators

Applicability - §60.50

General	 This subpart is applicable to each incinerator of more than 45 metric tons per day charging rate (50 tons/day). Any facility above that commences construction or modification after August 17, 1971, is subject to the requirements of this subpart.
	2.) Any factily above that commences construction of modification after August 17, 1971, is subject to the requirements of this subpart.

Emission Standards - §60.52

Source	PM
General	On and after the date on which the performance test required to be conducted is completed, no facility shall emit any gases which contain particulate matter in excess of 0.18 g/dscm (0.08 gr/dscf) corrected to 12 percent CO2.

Monitoring of Operations - §60.53

Monitoring of Operations - §60.53		
Source	All Emissions	
General	1.) Facility shall record the daily charging rates and hours of operation.	

Test Methods and Procedures - §60.54

Test Methods and	thods and Procedures - §60.54	
Source	All Emissions	
General	 In conducting the performance tests the facility shall use as reference methods and procedures the test methods in appendix A of this part or other methods and procedures as specified in §60.54 (a-c). The owner or operator shall determine compliance with the particulate matter standard using the procedures found in §60.54 (b) (1-2) The owner or operator may use either of the procedures found in §60.54 (c) to determine the adjusted CO2 concentration.
