

State of California  
AIR RESOURCES BOARD

**Acceptance of the Greenhouse Gas Quantification Determination for the  
San Joaquin Council of Governments' Regional Transportation Plan/Sustainable  
Communities Strategy**

Resolution 15-10

May 21, 2015

Agenda Item No.: 15-4-3

WHEREAS, SB 375 (Steinberg, Chapter 728, Statutes of 2008), also known as the Sustainable Communities and Climate Protection Act, aims to reduce greenhouse gas (GHG) emissions from passenger vehicle travel through improved transportation and land use planning at the regional scale;

WHEREAS, SB 375 requires each of the State's 18 federally-designated Metropolitan Planning Organizations (MPO), including the San Joaquin Council of Governments (SJCOG), to develop a Sustainable Communities Strategy (SCS), or an Alternative Planning Strategy that meets the regional GHG emission reduction targets for passenger vehicles set by the Air Resources Board (ARB or Board);

WHEREAS, on September 23, 2010, the Board set GHG reduction targets for 2020 and 2035, expressed as a per capita percentage reduction relative to 2005 levels, for each of the State's MPOs;

WHEREAS, the targets set for the SJCOG region are a 5 percent decrease in 2020 and a 10 percent decrease in 2035 relative to 2005 levels;

WHEREAS, SJCOG staff engaged the public by holding public workshops and community meetings between August 2012 and April 2014;

WHEREAS, in February 2014, SJCOG published a draft Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) for 2014-2040 which was available for public review for 55 days;

WHEREAS, on June 26, 2014, the SJCOG Board of Directors approved the final RTP/SCS for 2014-2040 and the SJCOG Board resolution of adoption stated the SCS, if implemented, would meet the targets of 5 percent per capita reduction from 2005 levels in 2020 and 10 percent per capita reduction from 2005 levels in 2035;

WHEREAS, as required by California Government Code section 65080(b)(2)(J)(ii), SJCOG submitted the final SCS to ARB on March 27, 2015, for review of its GHG emissions quantification determination;

WHEREAS, section 65080(b)(2)(J)(ii) of the California Government Code calls for ARB to accept or reject an MPO's determination that its submitted strategy would, if implemented, achieve the GHG emissions reduction targets established by the Board;

WHEREAS, ARB staff performed a technical evaluation of the approved 2014 SCS using ARB's methodology, published in July 2011, for review of GHG emissions calculation procedures for SCS plans;

WHEREAS, ARB staff's evaluation found that SJCOG used technical methodologies that would reasonably quantify GHG emissions reductions from the adopted SCS;

WHEREAS, ARB staff's technical evaluation of SJCOG's GHG emissions reduction quantification is contained in Attachment A, "Technical Evaluation of the Greenhouse Gas Emissions Reduction Quantification for the San Joaquin Council of Governments' SB 375 Sustainable Communities Strategy," dated May 2015; and

WHEREAS, ARB staff's evaluation affirms that SJCOG's adopted 2014-2040 SCS would, if implemented, achieve the GHG emissions reduction targets that the Board established for the region for 2020 and 2035.

NOW, THEREFORE, BE IT RESOLVED that pursuant to section 65080(b)(2)(J)(ii) of the California Government Code, the Board hereby accepts SJCOG's quantification of the GHG emission reductions from the final SCS adopted by the SJCOG Board of Directors on June 26, 2014, and accepts the MPO's determination that the SCS would, if implemented, achieve the region's GHG emissions reduction targets.

NOW, THEREFORE, IT IS ORDERED that ARB staff forward this Resolution to the SJCOG Board of Directors and Executive Director.

I hereby certify that the above is a true and correct copy of Resolution 15-10 as adopted by the Air Resources Board.
