Background

Assembly Bill (AB) 617 (C. Garcia, Chapter 136, Statutes of 2017) was signed into law in July 2017. CARB established the Community Air Protection Program (Program) to implement AB 617, which requires new community-focused action to reduce air pollution and improve public health in communities that experience disproportionate burdens from exposure to air pollutants. On September 27, 2018, the Board selected ten communities for the first year of this program to implement community emissions reduction programs, community air monitoring, or both. At the same meeting, the Board also approved the "Community Air Protection Blueprint" (Blueprint), which contains detailed requirements for community emissions reduction programs, community air monitoring plans, and other elements of the Program. On December 13, 2019, the Board selected three additional communities for both community air monitoring and community emissions reduction programs.
