7. What are the different document statuses (Received, Pending, etc.), and what is the definition for each of them? List updated on 9-18-07

## **DMS Document Status**

Status	Status Meaning
Draft	Manufacturer uploaded the document (not submitted to
	the workflow). Manufacturer may modify it.
Pending	Manufacturer submitted the document to the workflow.
	The document is waiting to be reviewed.
Received **	ARB staff received the document and found correct the
	file name, metadata, and file location. Document not
	reviewed at this point. ARB staff can still request
	additional information from manufacturer later.
InProcess	ARB staff is reviewing/processing the document.
InfoNeeded	ARB staff sent a request for additional information to
	the manufacturer.
Reviewed **	ARB staff finished reviewing the document.
Approved	ARB staff completed processing the document – the
	request and document(s) were approved (i.e. EO/letter
	signed).
Rejected	ARB staff completed processing the document – the
	request and document(s) were rejected.

## Note:

\*\* These status values are also used as the final status of document types that do not require approval by ARB staff.
