

PUBLIC WORKSHOP NOTICE

Joint Webinar:

Update on the Proposed Amendments to the Air Toxics "Hot Spots" EICG Regulation and the Criteria and Toxics Reporting Regulation

The California Air Resources Board (CARB) has scheduled a joint webinar to provide an update on the proposed amendments to the Air Toxics "Hot Spots" Emission Inventory Criteria and Guidelines (EICG) Regulation¹ and the Regulation for the Reporting of Criteria Air Pollutants and Toxic Air Contaminants (CTR).² The proposed amendments to both regulations are scheduled to be presented for Board consideration at the November 19-20, 2020 CARB Board meeting.

In an effort to take advantage of the similarities of the two programs, staff have aligned requirements for many common elements, such as sectors subject to reporting, phase-in schedules, chemical lists, and reporting thresholds. The proposed amendments to EICG and CTR will enhance and support CARB's broader mission to protect the public from the effects of airborne toxics and other pollutants. During the webinar, staff will go over the proposed amendments to both regulations, highlight the synergies between the two programs, and discuss the process leading up to the Board Meeting.

Details of the webinar are as follows:

DATE: September 30, 2020
TIME: 9:30 a.m. to 12:30 p.m.

HOW TO PARTICIPATE: Please register at this link:
