## Background

For some time now, there have been ongoing concerns of odors in the City of Avenal. The California Air Resources Board continues to work with other agencies to address the situation. The purpose of this meeting is to share what we have been doing and our plan of action with the community. We also want to hear ideas from the community on ways to resolve the odor problem. Most of the agencies' staff do not live in Avenal, so your voice is important to us.

The agencies working collectively together on the odors are:

- California Air Resources Board
- CalRecycle
- City of Avenal
- Kings County Local Enforcement Agency
- San Joaquin Valley Air Pollution Control District
- California State Water Resources Control Board

## Discussion Topics

- Welcoming remarks
- Summary of our current investigation
- Coordination on odor complaints
- Community perspective and suggestions
- Next steps
