Re: Imperial County North End Community AB 617 Nomination

Dear Ms. Reyes:

In order to make any new 617 community, North End or corridor like recommendation feasible, adequate funding must be available. In light of limited resources and funding, we (ICAPCD) cannot move forward and this item should not move forward to the CARB Board at this time.

The resources we do have need to continue their current success at the El Centro, Heber, and Calexico corridor.

We look forward to discussing future years and further collaborations.

Sincerely,
