Lee Cheatham
Shell Mormon Island – Berths 168
Port of Los Angeles
Lee.Cheatham@SHELL.com

Dear Lee Cheatham:

Thank you for submitting the Terminal Plan (Plan) on behalf of the Shell Mormon Island Terminal (Berth 168) to the California Air Resources Board (CARB) as required by the Control Measure for Ocean-Going Vessels At Berth ("Regulation"). CARB staff have reviewed your Plan submittal against the requirements set forth in section 93130.14(a) of the Regulation, and have identified the Plan is missing the information required by the following provisions:

- Section 93130.14(a)(3)(F) of the Regulation requires the terminal to provide a schedule for installing equipment;

CARB requests that a corrected Plan addressing the above deficiencies be re-submitted as an updated Plan to shorepower@arb.ca.gov within 90 days of receipt of this letter. Once CARB receives the updated Plan, staff will have 90 calendar days to review the corrected Plan and confirm completeness.

Additional information on Port and Terminal Plans can be found on CARB's website at: <https://ww2.arb.ca.gov/new-berth-regulation-implementation>.

If you have any questions about the deficiencies identified by CARB, please contact Elizabeth Melgoza, Air Pollution Specialist, Marine Strategies Section, by email at: elizabeth.melgoza@arb.ca.gov.

Sincerely,

Bonnie Soriano, Branch Chief, Freight Activity Branch
