Hello Alejandro,

We have reviewed the Port and Terminal plan for the Amports facility at the Benicia port terminal. We would like to deem the plan complete, but there is one small detail missing from the plan.

Per section 93130.14(a)(3)(B) of the Regulation, please update and resend us the plan to include the number of vessels expected to visit the terminal using the strategy. We can then approve the plan as complete.

Please let me know if you have any questions.
