katy.powers@shell.com

Dear Katy Powers,

Thank you for submitting the revised Terminal Plan on behalf of Shell for the Mormon Island Terminal (berth 168) to the California Air Resources Board (CARB) as required by the Control Measure for Ocean-Going Vessels At Berth ("Regulation"). CARB staff has reviewed your revised Plan submittal and has determined that the plan fulfills the requirements of the Regulation as set forth in section 93130.14(a). CARB considers the Plan complete, and no changes are necessary at this time.

An updated Terminal Plan for the Shell Mormon Island Terminal is due by February 1, 2024, as set forth in section 93130.14(a)(2)(F) and can be submitted to CARB at shorepower@arb.ca.gov. This updated Plan must reflect any changes since the revised Plan. Once received, CARB will have 90 calendar days to review updated plan submissions for any deficiencies.

If any significant changes occur to any elements of your Terminal Plan, you may resubmit an updated Plan to CARB (shorepower@arb.ca.gov) at any time. Additional information on Terminal Plans can be found on CARB's website at: <https://ww2.arb.ca.gov/new-berth-regulation-implementation>.

Sincerely,

Bonnie Soriano, Branch Chief, Freight Activity Branch
