

California Communities Travel Survey 2023.11.30

Thanks for your interest in taking part in this important research on transportation in California. Before we begin, please take a moment to read the information below. Click "next" at the bottom of the page to continue the survey.

Introduction and Purpose

You are being invited to join a research study conducted by the Institute of Transportation Studies, University of California, Davis

There is a \$8 Amazon.com Gift Card* for the first 2,500 respondents who take this survey. In addition, there are 50 available \$50 Amazon.com Gift Cards* that will be drawn at random.

The purpose of this study is to learn more about Californian households' access to transportation, how they get around, and their views about new transportation technologies.

If you agree to be in this research, you will be asked to complete a survey. You will be asked questions about your households, where you live, how you get around, and your views about new transportation technologies. It will take about 15 minutes to complete the survey.

There is no direct benefit to you from taking part in this study. We hope that the research will inform California transportation policy and investments into transportation improvements.

The risks of this research are minimal. Some of the questions might make you feel uncomfortable or upset. You do not have to answer any of the questions you do not want to answer and can leave the survey at any time. Some questions require a response because they are important in informing California transportation policy.

Compensation

Your responses are important to us and we hope you will take this survey.

If you do not wish to participate in this survey but would still like to receive an \$8 incentive (if eligible) or be entered into the drawing of 50 available \$50 gift cards please write to:

Attn Scott Hardman
Electric Vehicle Research Center
1605 Tilia St
Davis, CA 95616

Confidentiality

As with all research, there is a chance that confidentiality could be compromised; however, we are taking precautions to minimize this risk. Your responses to the survey will not include information that directly identifies you. All survey data will be handled as confidentially as possible. However, individuals from UC Davis who oversee research may access your data during audits or other monitoring activities.

To minimize the risks of breach of confidentiality, we will store survey data on a secure password protected encrypted cloud based storage.

Rights

Taking part in research is completely voluntary. You are free to decline to take part in the project. You can decline to answer any questions and you can stop taking part in the project at any time. Whether or not you choose to take part, or answer any question, or stop taking part in the project, there will be no penalty to you or loss of benefits to which you are otherwise entitled.

Questions

If you have any questions about this research, please feel free to contact the investigator at 530 754 4408 (tel:+15307544408) or shardman@ucdavis.edu (mailto:shardman@ucdavis.edu)

If you have any questions about your rights or treatment as a research participant in this study, please contact the UC Davis, Institutional Review Board by phone: 916 703 9158 (tel:+19167039158) or by email: HS-IRBEducation@ucdavis.edu (mailto:HS-IRBEducation@ucdavis.edu).

If you agree to take part in the research, select the next button below to continue to take the survey.
