Cap-and-Trade Dollars at Work Across California

California Climate Investments is a statewide program that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment, particularly in disadvantaged communities.

For an interactive map of investments statewide, visit caclimateinvestments.ca.gov

$22.9 million
Cap-and-Trade dollars implemented within the District as of November 30, 2017

454
projects, rebates, and vouchers implemented within the District

2,034,814
MTCO$_2$e estimated over reduction timeframe

STATEWIDE CO-BENEFITS

- improved air quality
- reduced water use
- enhanced ecosystems
- employment & economic development
- greater transit accessibility
- dollar savings

Some projects are not located at a single address, and therefore could be attributable to multiple legislative districts. For projects that physically cross multiple legislative districts (e.g., transit projects), the entire project funding and other benefits are attributed to all relevant districts. For projects that report at the census tract level (e.g., vouchers, rebates, and household installations), the entire project funding and other benefits are attributed to a single district, determined by which district includes the majority of the census tract.

In September 2016, the Legislature passed AB 1550 (Gomez, Chapter 369, Statutes of 2016), which requires the 2019 Investment Plan to include new investment allocations for disadvantaged communities, and low-income communities and households. In 2017, CARB released guidance to help administering agencies direct funding consistent with these new allocations. Future reports will include AB 1550 outcomes as agencies implement more funding.

California Climate Investments is a statewide program that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment, particularly in disadvantaged communities.

For an interactive map of investments statewide, visit caclimateinvestments.ca.gov

$16.8 million
Cap-and-Trade dollars implemented within the District as of November 30, 2017

3,999
projects, rebates, and vouchers implemented within the District

156,140
MTCO₂e estimated over reduction timeframe

High-Speed Rail
High-Speed Rail is also using Cap-and-Trade dollars to electrify Caltrain from San Francisco to San Jose (AD17, AD 22, AD 24, AD 25, and AD27).

STATEWIDE CO-BENEFITS

- improved air quality
- reduced water use
- enhanced ecosystems
- employment & economic development
- greater transit accessibility
- dollar savings

Some projects are not located at a single address, and therefore could be attributable to multiple legislative districts. For projects that physically cross multiple legislative districts (e.g., transit projects), the entire project funding and other benefits are attributed to all relevant districts. For projects that report at the census tract level (e.g., vouchers, rebates, and household installations), the entire project funding and other benefits are attributed to a single district, determined by which district includes the majority of the census tract.

In September 2016, the Legislature passed AB 1550 (Gomez, Chapter 369, Statutes of 2016), which requires the 2019 Investment Plan to include new investment allocations for disadvantaged communities, and low-income communities and households. In 2017, CARB released guidance to help administering agencies direct funding consistent with these new allocations. Future reports will include AB 1550 outcomes as agencies implement more funding.

STATEWIDE CO-BENEFITS

- improved air quality
- reduced water use
- enhanced ecosystems
- employment & economic development
- greater transit accessibility
- dollar savings

Some projects are not located at a single address, and therefore could be attributable to multiple legislative districts. For projects that physically cross multiple legislative districts (e.g., transit projects), the entire project funding and other benefits are attributed to all relevant districts. For projects that report at the census tract level (e.g., vouchers, rebates, and household installations), the entire project funding and other benefits are attributed to a single district, determined by which district includes the majority of the census tract.

In September 2016, the Legislature passed AB 1550 (Gomez, Chapter 369, Statutes of 2016), which requires the 2019 Investment Plan to include new investment allocations for disadvantaged communities, and low-income communities and households. In 2017, CARB released guidance to help administering agencies direct funding consistent with these new allocations. Future reports will include AB 1550 outcomes as agencies implement more funding.

California Climate Investments is a statewide program that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment, particularly in disadvantaged communities.

$55.4 million
Cap-and-Trade dollars implemented within the District as of November 30, 2017

100%
of total funds invested within the District benefit disadvantaged communities

1,810
projects, rebates, and vouchers implemented within the District

303,598
MTCO₂e estimated over reduction timeframe

For an interactive map of investments statewide, visit caclimateinvestments.ca.gov

STATEWIDE CO-BENEFITS

- improved air quality
- reduced water use
- enhanced ecosystems
- employment & economic development
- greater transit accessibility
- dollar savings

Some projects are not located at a single address, and therefore could be attributable to multiple legislative districts. For projects that physically cross multiple legislative districts (e.g., transit projects), the entire project funding and other benefits are attributed to all relevant districts. For projects that report at the census tract level (e.g., vouchers, rebates, and household installations), the entire project funding and other benefits are attributed to a single district, determined by which district includes the majority of the census tract.

In September 2016, the Legislature passed AB 1550 (Gomez, Chapter 369, Statutes of 2016), which requires the 2019 Investment Plan to include new investment allocations for disadvantaged communities, and low-income communities and households. In 2017, CARB released guidance to help administering agencies direct funding consistent with these new allocations. Future reports will include AB 1550 outcomes as agencies implement more funding.
