Ashley Conrad-Saydah | CalEPA

Administering Agency Representatives

- **Helge Eng** | CALFIRE
- **Edie Chang** | California Air Resources Board
- **Jenny Lester-Moffitt** | California Department of Food and Agriculture
- **Julie Alvis** | California Natural Resources Agency
- **Marlon Flournoy** | California State Transportation Agency
- **Linne Stout** | Community Services and Development
- **Monica Palmeira** | Strategic Growth Council

Draft Third Investment Plan for Fiscal Years 2019-20 through 2021-22

California Climate Investments should:

- Emphasize community involvement and community benefits
- Focus on transitioning to a low-carbon future and preparing California for a changing climate

California Climate Investments

Funding is generated from Cap-and-Trade auctions

California Climate Investments must:

- Facilitate greenhouse gas emission reductions
- Invest a portion of funds in disadvantaged and low-income communities
- Provide other community benefits

Agencies develop programs and select projects

Priority Populations

Disadvantaged communities

Low-income households or low-income communities anywhere in the State

Low-income households or low-income communities that are outside of, but within 1/2 mile of, disadvantaged communities

California Climate Investments

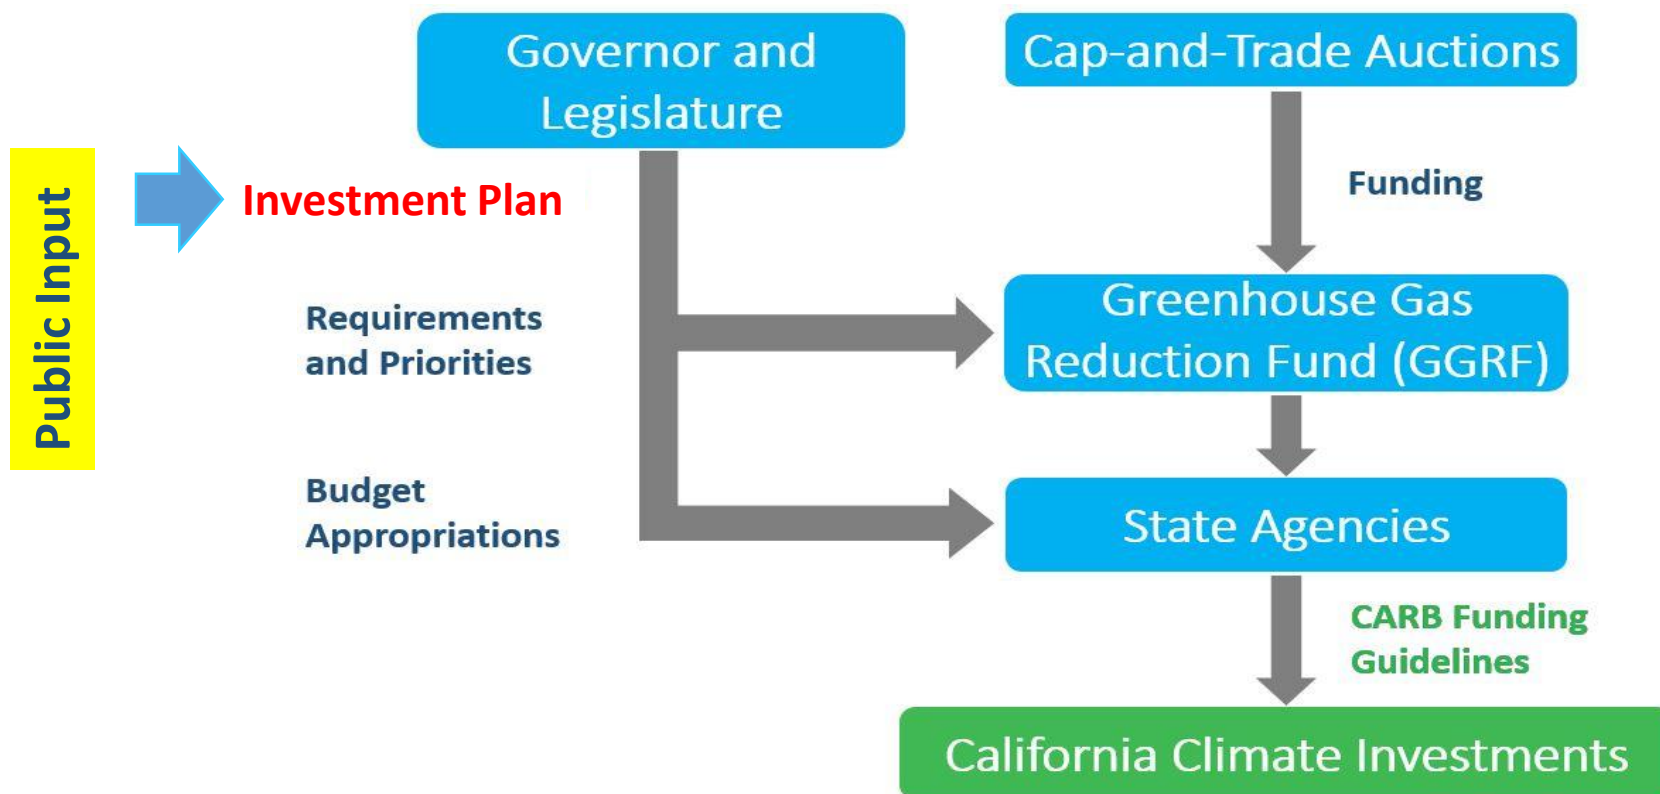

\$8 billion to programs to date
Projects across the State are providing benefits:

- Improved air quality
- Sustainable agriculture
- Jobs
- Community engagement
- Tree cover and open space
- Resilience to extreme heat and other conditions
- Transportation options
- Lower energy costs

Draft Third Investment Plan

- Provides guidance to the Legislature for funding decisions made July 2019 through June 2022

Draft Third Investment Plan

Key Recommendations

- Prioritize community transformation
- Develop multi-year funding commitments
- Consider and plan for large investments in the long-term
- Support the existing suite of California Climate Investments programs

Draft Third Investment Plan Strategies

- Identify transformational changes needed for long-term air and climate goals
- Increase funding access for priority populations
- Continue programs providing meaningful community benefits, including jobs
- Encourage ongoing transparency and accountability
