

## EXECUTIVE ORDER D-825

Relating to Exemptions Under Section 27156  
of the California Vehicle Code

Automotosport Inc.  
Red Alpha Cold Air Intake Kit

Pursuant to the authority vested in the California Air Resources Board (CARB) by Section 27156 of the Vehicle Code (VC); and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Red Alpha Cold Air Intake Kit, manufactured by Automotosport Inc. (AMS) of 1760 Metoyer Court, West Chicago, Illinois 60185, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the following vehicles:

<u>Part Number</u>	<u>Year</u>	<u>Make</u>	<u>Model</u>	<u>Engine</u>
ALP.28.02.0002-1	2016-2019	Infiniti	Q50	3.0L turbocharged
	2017-2019	Infiniti	Q60	3.0L turbocharged

The Red Alpha Cold Air Intake Kit includes the following main components: dual open-element air filters, heat-shields and/or enclosed air boxes, intake system tubing, couplers, assorted brackets, and hardware. There are no other engine modifications.

This Executive Order is valid provided that installation instructions for the Red Alpha Cold Air Intake Kit will not recommend tuning the vehicle to specifications different from those that have been specified by AMS.

Changes made to the design or operating conditions of the Red Alpha Cold Air Intake Kit, as exempt by CARB, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Red Alpha Cold Air Intake Kit advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Red Alpha Cold Air Intake Kit using any identification other than that shown in this Executive Order or marketing of the Red Alpha Cold Air Intake Kit for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from CARB.

This Executive Order does not constitute any opinion as to the effect the use of the Red Alpha Cold Air Intake Kit may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on emission test results in the modified configuration, an examination of the On-Board Diagnostic II (OBD II) system, and an engineering evaluation. Therefore, the Red Alpha Cold Air Intake Kit meets the criteria for exemption for the vehicles listed in this Executive Order.

CARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides CARB with reason to suspect that the Red Alpha Cold Air Intake Kit will affect the durability of emission control systems, AMS shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE AMS RED ALPHA COLD AIR INTAKE KIT.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 27<sup>th</sup> day of November 2019.

for Allen Lyons, Chief  
Emissions Certification and Compliance Division
