Alternative Diesel Fuels Regulation

Reporting Summary – 2016

The Alternative Diesel Fuels (ADF) regulation, which became effective January 1, 2016, requires regulated parties to report produced, imported, and blended amounts of all biodiesel blendstock and the biodiesel blends produced. The table below is a summary of ADF reporting in 2016 and shows the volumes of B100/B99 blendstock imported and produced as well as the percentages of B100/B99 blendstock blended to produce final blends of B20 and below.

Alternative Diesel Fuels Reporting Summary 2016

	Total B100/B99 Volume Imported/Produced	Percentage of B100/B99 blended to produce B5	Percentage of B100/B99 blended to produce B10	Percentage of B100/B99 blended to produce B15	Percentage of B100/B99 blended to produce B20
2016 Q1	29,574,257	71.4%	13.4%	6.7%	8.5%
2016 Q2	39,403,956	67.7%	3.2%	9.0%	20.2%
2016 Q3	43,273,138	69.1%	2.6%	4.2%	24.0%
2016 Q4	51,470,762	74.4%	4.3%	2.4%	18.9%
Total	163,722,113	70.6%	5.2%	5.4%	18.9%
