

## WORKSHOP NOTICE

November 8, 2018

TO: All Interested Parties

SUBJECT: PUBLIC WORKSHOP TO DISCUSS COST EFFECTIVENESS AND EMISSIONS ESTIMATES OF POTENTIAL AMENDMENTS TO ABOVEGROUND GASOLINE STORAGE TANK PHASE II VAPOR RECOVERY REQUIREMENTS

---

The California Air Resources Board (CARB) staff invites you to participate in a public workshop (workshop) to discuss the cost effectiveness and emission estimates of potential amendments to aboveground gasoline storage tank (AST) vapor recovery requirements. The workshop will take place in Sacramento, California at the location and time indicated below. Interested stakeholders can participate in the workshop either in person or via teleconference.

Aboveground Storage Tank Workshop	
<b>Date:</b>	Tuesday, December 4, 2018
<b>Time:</b>	10:00 a.m. to 12:00 p.m. (PST)
<b>Location:</b>	California Air Resources Board First Floor Conference Rooms 1927 13 <sup>th</sup> Street Sacramento, California

Existing protected AST systems with remote dispensing are required to upgrade to Phase II Enhanced Vapor Recovery (EVR) by March 13, 2019. To address potential concerns of cost effectiveness, CARB staff have conducted an analysis to determine the costs and emissions associated with the upgrade to Phase II EVR. Based on this analysis, staff would propose amendments to existing requirements.

At the workshop, CARB staff will make a short presentation, followed by a question-and-answer period. CARB staff will discuss the history of the California's Phase I and Phase II EVR requirements for ASTs, the steps used to determine costs and emissions estimates, and will solicit feedback on proposed amendments. The presentation and supporting information will be posted prior to the workshop on the Vapor Recovery Homepage at <https://ww2.arb.ca.gov/our-work/programs/vapor-recovery>.

All Interested Parties

We encourage you to attend the workshop in person; however, the workshop will be accessible via listen only teleconference for those unable to travel to Sacramento. Teleconference participants can call (800) 230-1085 (participant code not required). Those participating by teleconference will be able to email questions or comments to [vapor@arb.ca.gov](mailto:vapor@arb.ca.gov) during the workshop.

If you require special accommodation for the workshop or need this document in an alternative format (e.g., Braille, large print) or another language, please contact Ms. Cynthia McKeith at (916) 324-7636 or by email at [cynthia.mckeith@arb.ca.gov](mailto:cynthia.mckeith@arb.ca.gov). TTY/TDD Speech-to-Speech users may dial 711 for the California Relay Service.

If you have technical questions regarding the AST program, please contact Ms. Donielle Jackson at (916) 445-9306 or via email at [donielle.jackson@arb.ca.gov](mailto:donielle.jackson@arb.ca.gov), or Ms. Merrin Wright at (916) 324-6191 or via email at [merrin.wright@arb.ca.gov](mailto:merrin.wright@arb.ca.gov). If you have difficulties accessing the website or teleconference on the day of the workshop, please call (916) 327-0900.

Sincerely,

George Lew, Chief  
Vapor Recovery and Fuel Transfer Branch  
Monitoring and Laboratory Division
