

**FORM 14 - Application for a Portable Road Surface Processing Registration**

<b>1. Company Name:</b>			
<b>2. Equipment Listing: Include the manufacturer, model, and serial number of the plant. This information may be for the plant as a unit or it may be necessary to list individual components. If inadequate space is provided, please attach listing.</b>			
Is the unit self-propelled or on tracks? Yes <input type="checkbox"/> No <input type="checkbox"/>  <i>If yes then the engine is not eligible for registration in the Portable Equipment Registration Program but may need to be reported in the Off-Road Diesel (DOORS) Program.</i>			Company Unit ID (Optional):
<b>Component Type</b>	<b>Manufacturer</b>	<b>Model</b>	<b>Serial Number</b>
<b>3. Maximum Throughput Rating:                      tons/hr</b>			
<b>4. Road Surfacing Process type:</b> <input type="checkbox"/> Trenching Machine <input type="checkbox"/> Cold Planer <input type="checkbox"/> Milling Machine <input type="checkbox"/> Pavement Grinder <input type="checkbox"/> Reclamation Machine <input type="checkbox"/> Other:			
<b>5. Indicate equipment use. Include all possible operating scenarios:</b>			
<b>6. Provide a Material Flow Chart.</b> <i>Provide a material flow chart for a maximum throughput scenario showing all the components of the plant in operational configuration. Include throughput quantities for all branches.</i>			
<b>7. Indicate types of materials processed:</b>			
<b>8. Indicate method and efficiency of particulate emission control for transfer points:</b> <input type="checkbox"/> Water Sprays <input type="checkbox"/> Onsite Water Truck <input type="checkbox"/> Bag House/Dust Collector <input type="checkbox"/> Other:			
<b>9. Home District Designation:</b>			

**Note: Engines that power mobile, or self-propelled equipment, may not be registered in the Portable Equipment Registration Program. For information about off-road diesel vehicles or to enter a vehicle into the DOORS program, go to <https://www.arb.ca.gov/msprog/ordiesel/ordiesel.htm>**

1. *Company Name* - Legal name of entity, business, organization, agency, or private individual that operates the equipment.
2. *Equipment Listing* - List information regarding the major components of equipment. Attach extra pages if needed. If the plant is considered a single, composite unit and can be identified by manufacturer, model number, and serial number, which includes all of the components, list the information for the plant. If the plant is composed of individual components, list the type, manufacturer, model, and serial number for each component. Indicate if the unit is self-propelled or on tracks. For each piece, please provide all of the following:
  - Component Type* - Describe the equipment or component, such as “crusher” or “screen.”
  - Manufacturer* - For example: Simons, Rexnord, or your company name if built in-house.
  - Model* - May be a series of numbers or letters or combinations of numbers and letter. For example: 3612.
  - Serial Number* - A unique, unit specific number, usually on the equipment nameplate. The serial number is necessary to ensure that each piece of registered equipment can be uniquely identified and matched to its respective registration certificate number.
  - Company Unit ID (Optional)* - This is your own number or name you use to identify or track the equipment.Indicate if the unit is self-propelled or on tracks. Engines that power mobile, or self-propelled equipment, may not be registered in the Portable Equipment Registration Program. For information about off-road diesel vehicles look up the DOORS program.
3. *Maximum Throughput Rating* - Indicate the maximum rated throughput in tons per hour.
4. *Road Surfacing Process Type* - Indicate the type of road surfacing equipment.
5. *Equipment Use Including All Operating Scenarios* - Explain how equipment is used, such as “crushing of rock in the manufacture of aggregate.” Include multiple uses or operating scenarios.
6. *Provide a Material Flow Chart* - List multiple pieces such as conveyors 1, 2, and 3; crushers 1 and 2; screens 1 and 2; etc. Include a diagram showing the flow and quantities of material and how all components fit together, with emission points clearly marked.  
**Make sure that the material flow chart shows the tons per hour through each transfer point.**
7. *Types of Materials Processed* - List all types of rock, aggregate, or other materials processed.
8. *Method and Efficiency of Particulate Matter Control*: Include the method and efficiency of particulate control for each transfer point.
9. *Home District Designation* - Indicate the one air pollution control or air quality management district in which this equipment will operate most of the time. A home district is required for each unit. To determine home district by location, go to <http://www.arb.ca.gov/app/dislookup/dislookup.php>.

*Please note that under the California Public Records Act (Gov. Code, § 6250 et seq.), your submissions, including associated contact information (e.g., your address, phone, email, etc.) become public records and may be released to the public upon request. Personal information will be protected from disclosure as required by law, including under the Information Protection Act. (Cal. Civ. Code, § 1798, et seq.) Information that is claimed to be confidential should be submitted as provided in CARB’s regulations for submitting confidential data, California Code of Regulations, title 17, section 91011.*
