10:32:21 AM

SEP Name	SEP Recipient	Amount Funded	Pollutan	Location	Summary
Asthma Impact Model Merced	Central California Asthma Collaborative	\$35,000.00	PM	Merced Country	This SEP aims to improve the lives of asthma sufferers by helping them identify asthma triggers, and providing medical care to individuals who have little or no access to quality health care.
Community Diesel Education & Emissions - DEEP	Green Action for Health and Environmental Justice	\$30,000.00	PM	Kings County	The project will launch new Community Diesel Education and Emission Reductions Project (DEEP) efforts in Kettleman City (in Kings County). The DEEP is a multi-stakeholder collaborative effort that brings together residents, environmental health and justice groups, truckers, bus drivers, businesses, schools, and government agencies to reduce diesel idling in communities by providing education and outreach materials to stakeholders regarding the health and environmental impacts of illegal diesel idling. Stakeholders work together to become educated and to spread awareness and compliance information throughout the community.
Healthy Air Neighborhoods - Modesto	Central California Asthma Collaborative	\$35,000.00	PM	Modesto County	The Central California Asthma Collaborative (“CCAC”) will utilize funds to deliver outreach material to community members in regards to the San Joaquin Valley Air District’s Residential Wood Burning Rule. CCAC will also take the opportunity to deliver information on other clean air incentive programs available to community members most impacted by toxic air contaminants.
Rexland Facility	Kern County General Services	\$50,000.00	CO2, GHG	Kern County	The Parks Department proposes to develop an indoor/outdoor soccer field. The project would divert trips from more distant facilities, and would be the only free facility in the community. The project is estimated to reduce VMT by 750,000 miles per year, and generate 347 tons of CO2 reductions per year.

SEP Name	SEP Recipient	Amount Funded	Pollutan	Location	Summary
Community Diesel Education & Emissions - DEEP-2	Central California Asthma Collaborative	\$10,000.00	PM	Wilmington	The project will launch new Community Diesel Education and Emission Reductions Project (DEEP) efforts in Kettleman City (in Kings County). The DEEP is a multi-stakeholder collaborative effort that brings together residents, environmental health and justice groups, truckers, bus drivers, businesses, schools, and government agencies to reduce diesel idling in communities by providing education and outreach materials to stakeholders regarding the health and environmental impacts of illegal diesel idling. Stakeholders work together to become educated and to spread awareness and compliance information throughout the community.
Installation of Air Filtration Systems in Schools (116K)	South Coast Air Quality Management District	\$116,250.00	Black Carbon, PM	Los Angeles, CA	This SEP will install and maintain high-performance air filtration systems in schools within communities most impacted by toxic air contaminants.
