

## How to use the *Current California Air District Rules Search Bar*

- The search bar provides an **exact match** for terms or numbers used in the titles of Regulations and Rules.
- The search bar does not support Boolean Operators.

### Common Terms - Sources

Common terminology used for similar sources across districts are listed below. While these provide a helpful starting point, the search bar is limited to terms in the Regulation or Rule title, thus does not necessarily provide a comprehensive result. Improvements to this functionality are planned in future versions.

- ASPHALT
- BLASTING, ABRASIVE BLASTING, SANDBLASTING
- BOILER, STEAM BOILER, STEAM GENERATOR, WATER HEATER
- BURNING
  - OPEN BURNING / OPEN-BURNING
