

November 10, 1998

Richard McVaigh
Permit Services Manager
San Joaquin Valley Unified Air Pollution Control District
1999 Tuolumne Street, Suite 200
Fresno, CA 93721

Dear Rick:

Thank you for finalizing the District/EPA Title V Permit Review Protocol Agreement. Matt Haber and I signed both copies, and I enclose one for your records. We have kept the other copy and have distributed copies to all of our permit engineers.

We will begin using the Agreement with the next set of permits you propose. For the revised permits you sent on November 6, we will call you if we spot any problems or have any questions. I understand from your cover letter that we have 45 days to review those revisions.

I would also like to continue making progress on the set of issues concerning earlier permits that we discussed most recently on October 19. Please let us know if you have any questions or comments on the draft summary of those issues, which Duong Nguyen sent you electronically a couple of weeks ago.

I appreciate your continued diligence in working through these issues with us. I'm looking forward to implementing our new Agreement and maintaining the good lines of communication that we have developed.

Sincerely,

/s/

Deborah Jordan
Associate Director
Air Division
