CARB

AB 617 PLANS FOR COMMUNITY ACTION

- Community emissions reduction programs
- Community-level air quality monitoring plans

CARB

ANNUAL COMMUNITY CONSIDERATION

CARB Governing Board annually considers selection of communities for either community emissions reduction programs, community air monitoring plans, or both.

PROCESS

CONTINUAL

Community Self Nominations*

OCTOBER

District Nominations

DECEMBER

Board Consideration

*Community self nominations can be emailed to: communityair@arb.ca.gov or airecomunitario@arb.ca.gov

CARB

4

COMMUNITIES SELECTED STATEWIDE

Sacramento

South Sacramento-Florin

Richmond-San Pablo

Bay Area

Stockton

West Oakland

South Central Fresno

San Joaquin Valley

Shafter

South East Los Angeles

San Bernardino, Muscoy

East Los Angeles, Boyle Heights, West Commerce

South Coast

Eastern Coachella Valley

Wilmington, Carson, West Long Beach

San Diego

Imperial

Portside Environmental Justice Neighborhoods
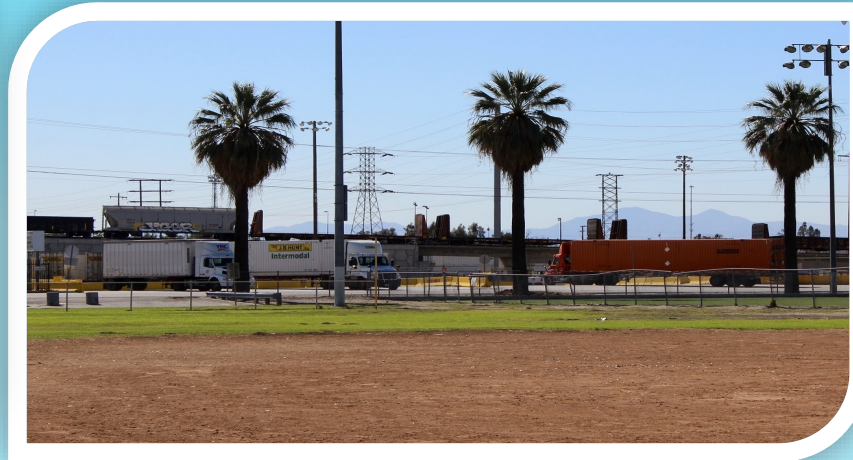

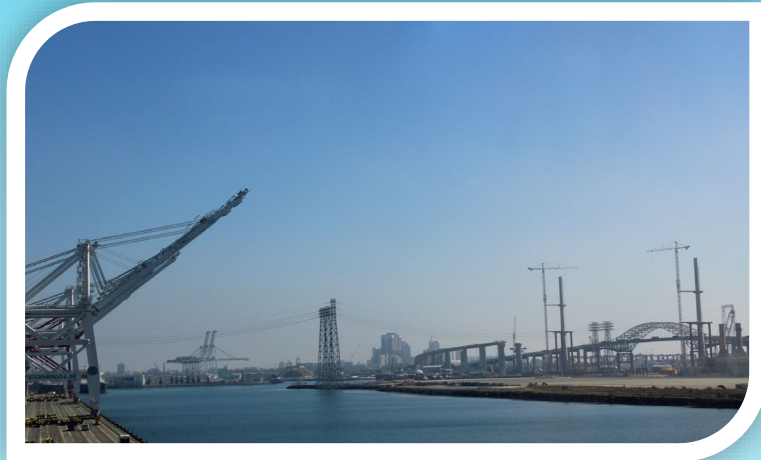

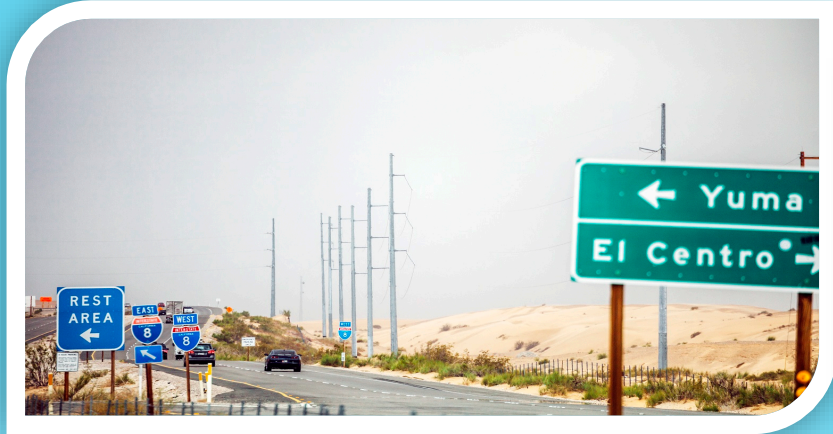

El Centro, Heber, Calexico

2018

- Initial 10 communities

- 7 communities developed community emissions reduction programs

- 9 communities developed community-level air quality monitoring plans
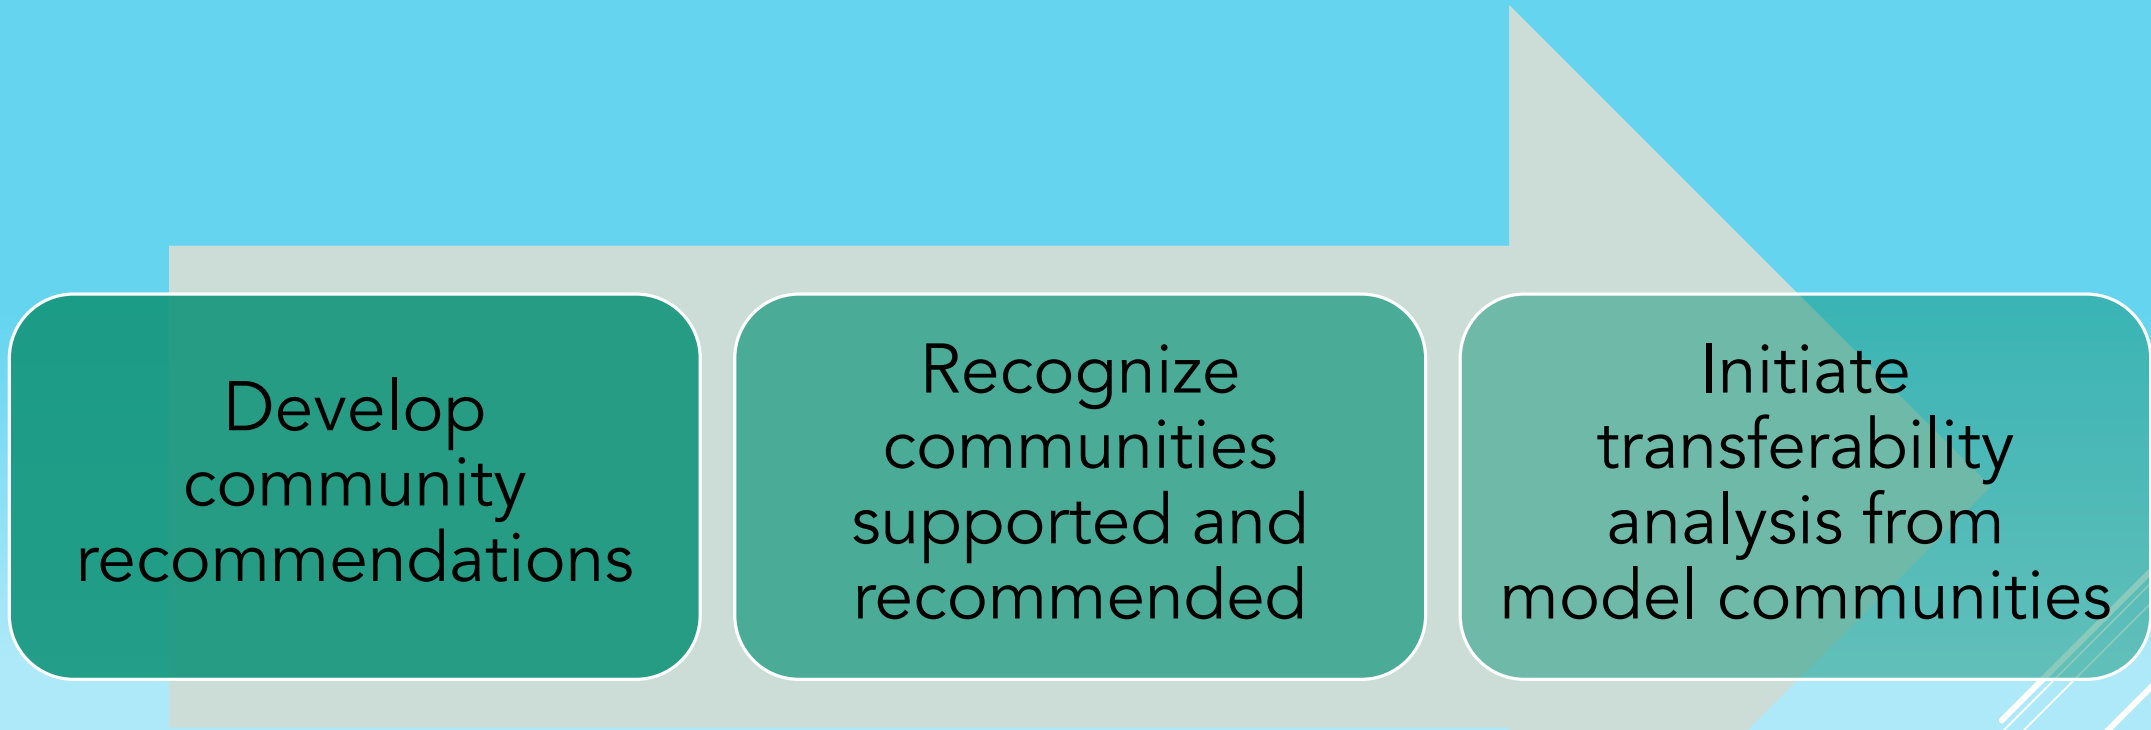

2019

- 3 new communities

- 1 community transitioned from a monitoring plan to a community emissions reduction program

CARB

5

AIR POLLUTION SOURCES

CARB

2020 RECOMMENDATION PROCESS

Develop community recommendations

Recognize communities supported and recommended

Initiate transferability analysis from model communities

CARB

CONSIDERATIONS FOR 2018 RECOMMENDATIONS

2018

- Factors considered

  ➢ Exposure to air pollution

  ➢ Sensitive populations

  ➢ Other measures of vulnerability

- Regional diversity and sources

CARB

CONSIDERATIONS FOR 2019 RECOMMENDATIONS

2018

- Factors considered
  - ➤ Exposure to air pollution
  - ➤ Sensitive populations
  - ➤ Other measures of vulnerability

- Regional diversity and sources

2019

- Prior year considerations

- 2018 Board direction to prioritize monitoring communities

- Consider resources available, and existing communities need

CARB

CONSIDERATIONS FOR 2020 RECOMMENDATIONS

2018

- Factors considered
  - ➤ Exposure to air pollution
  - ➤ Sensitive populations
  - ➤ Other measures of vulnerability
- Regional diversity and sources

2019

- Prior year considerations
- 2018 Board direction to prioritize monitoring communities
- Consider resources available, and existing communities need

2020

- All prior years considerations
- Board direction (December 2019)
- Budget, anticipate a very limited number of communities

CARB

BUILDING A COMMUNITY LIST

- Hundreds of communities recommended

  ➤ Submittals and testimony by air districts and communities

- Board direction (December 2019) - develop a list of communities*

  ➤ Recommended and not selected

  ➤ Continually supported communities

  *List is not exhaustive and remains open for other communities / shifts in priorities

CARB

11
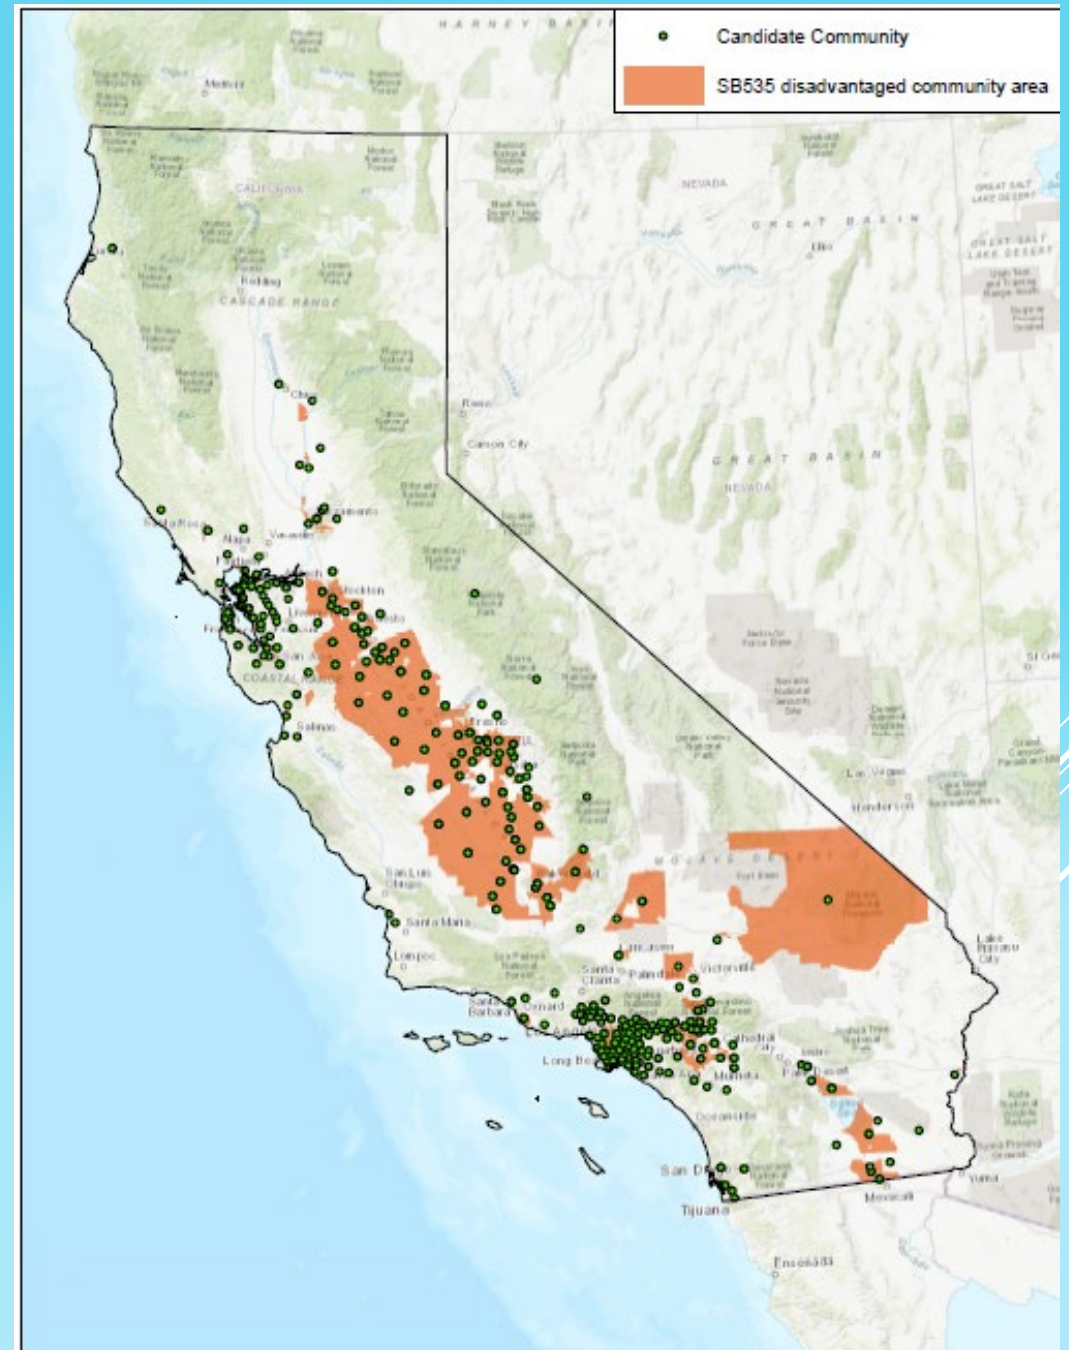

COMMUNITIES STRONGLY SUPPORTED

EXISTING MONITORING COMMUNITIES

- Richmond- San Pablo (Bay Area)
- South Sacramento – Florin (Sacramento)

CONTINUALLY SUPPORTED COMMUNITIES*

- East Contra Costa County (Bay Area)
- East Oakland (Bay Area)
- Eastern San Francisco (Bay Area)
- San Jose (Bay Area)
- Tri-Valley (Bay Area)
- Vallejo (Bay Area)
- Northern Imperial County Corridor- Bombay Beach, Brawley, Calipatria, Desert Shores, Niland, Salton City, Salton Sea Beach, Salton Sea, Seeley, Westmorland (Imperial)
- South Natomas (Sacramento)

- Norwood, Old North Sacramento, Del Paso Heights (Sacramento)
- International Border Community - Otay Mesa, San Ysidro (San Diego)
- Arvin/Lamont (San Joaquin)
- La Vina (San Joaquin)
- Madera (San Joaquin)
- Maywood, Commerce (east), Vernon, Bell (South Coast)
- Pacoima, North Hollywood, Sun Valley, San Fernando (South Coast)
- South Los Angeles, South Central Los Angeles, Hyde Park (South Coast)

*Communities with strong support from air districts, and communities to be recommended for selection in *upcoming years*.

CARB

INITIATE TRANSFERABILITY ANALYSIS

- Recognize the abundant need – hundreds of impacted communities in California

- Existing communities recommended based on potential to transfer:

    ➢ Best practices,

    ➢ Strategies, or

    ➢ Other element developed

- Leverage lessons learned in existing communities

- Discussions with AB 617 Consultation Group, environmental justice groups, and air districts

CARB

2020 TIMELINE

JUNE	• Process; community list • Kick-off via webinar
SUMMER	• Ongoing engagement • Consultation Group - initiate transferability discussions
OCTOBER 16	• Air district recommendations submitted to CARB
FALL	• CARB releases draft recommendations • Community outreach
DECEMBER 10-11	• CARB Governing Board consideration
