

Oil & Gas Instrument Lending Program

October 2019

What is the Oil & Gas Instrument Lending Program?

- Lends Method 21 instruments to Air Districts implementing the O&G Methane Regulation
 - Aids Air District LDAR Surveys
 - Supports other Air District enforcement of the O&G Methane Regulation
- Districts implementing the O&G Methane Regulation have borrowing priority

What Instruments are Available?

- Over \$850,000 in Instruments
 - 24 items available, with accessories
- Toxic Vapor Analyzer (TVA 2020), DetectoPak-Infrared (DP-IR), Eagle 2 (Method 21 compliant)
- Optical Gas Imaging (OGI) Cameras w/ Zoom Lenses, Remote Methane Leak Detector (RMLD), High Flow Sampler (Not Method 21 compliant)

How does Staff Qualify to Borrow?

- Staff attends OGI and/or Instrument Training courses provided by CARB
 - Training participants are already qualified
- Other staff with operational experience on any instrument should contact CARB for access
- Optical Gas Imaging Camera Borrowers must have current certification

How can Staff Reserve and Check Out Instruments?

- Use Webcheckout:
<https://carb.webcheckout.net/patron#!/>
- If you have taken CARB's Instrument Training, you are ready to go – just email Joelle.Howe@arb.ca.gov to get your password
- CARB will ship instruments directly to you – Ground shipping to and from is pre-paid
