**FORM 20-APPLICATION FOR A CORRECTION OR MODIFICATION TO AN EXISTING
REGISTRATION**

ED/CREB-173 (REV. 07/2020) PAGE 2 OF 2

INSTRUCTIONS FOR COMPLETING THIS FORM

By submitting this request, you are agreeing to complete the registration process including payment of application fees.

Forward the completed application without payment to:

California Air Resources Board
Portable Equipment Registration Program
P.O. Box 2038
Sacramento, CA 95812

Upon receipt of completed application, we will provide you with an invoice for the fees due.

NOTE: Emergency-use and low-use modifications for Tier 3 engines must be submitted in the month of January. These requests must also include hour meter readings that were taken at the beginning of that month. Include the date that the reading was taken. There are strict limitations for operation of engines designated as emergency-use or low-use. Review the Portable Diesel Engine ATCM to determine if your engine can comply with these limitations.

NOTE: If you installed a VDECS device such as a diesel particulate filter, the device must be one which has been verified by CARB and meets the terms and conditions in the CARB Executive Order. Enter the CARB Executive Order number and the VDECS family name from the label on the device. The modification applies only to retrofit devices, not to devices which are part of the engine as it is produced by the engine manufacturer.

PRIVACY STATEMENT

Note that under the California Public Records Act (Gov. Code, § 6250 et seq.), your submissions, including associated contact information (e.g., your address, phone, email, etc.) become public records and may be released to the public upon request. Personal information will be protected from disclosure as required by law, including under the Information Protection Act (Cal. Civ. Code, § 1798, et seq.). Information that is claimed to be confidential should be submitted as provided in CARB's regulations for submitting confidential data, California Code of Regulations, title 17, section 91011.
