

5) Off Road PLT reports are placed in the PLT folder, which is inside of the model year folder, how can one submit Off Road PLT reports that contain data from two model years?

You have two options:

- 1) Separate the data into two reports, one for each model year.
- 2) Continue submitting the reports as you do now. The model year where you will upload the PLT report will be treated as calendar year for PLT purposes.
