

**SCIENTIFIC REVIEW PANEL ON TOXIC AIR CONTAMINANTS  
NOTICE OF PUBLIC MEETING**

The Scientific Review Panel on Toxic Air Contaminants (Panel), established pursuant to California Health and Safety Code section 39670, will hold a remote public meeting at the following time:

DATE: Friday, October 9, 2020  
TIME: 9:30 AM  
INFORMATION: <http://www.arb.ca.gov/srp/srp.htm>;  
[Lori.Miyasato@arb.ca.gov](mailto:Lori.Miyasato@arb.ca.gov); (916) 324-9284

**This meeting will be webcast:** Registration is necessary to view the webcast. To register, please go to: <https://zoom.us/meeting/register/tJcpdOqurzsuEtVXwVICNUq7-e8i8uefJNNk>

**Spanish-language interpretation** will be available during this meeting.

NOTE: the panel will accept oral and written comments on items 2-4. Those interested in submitting oral or written comments during the meeting please register in advance of the meeting at <https://zoom.us/meeting/register/tJcpdOqurzsuEtVXwVICNUq7-e8i8uefJNNk>.

— AGENDA —

**1. Welcome and Introductions**

**2. Informational Update from Department of Pesticide Regulation regarding 1,3-Dichloropropene mitigation pilot studies**

*Department of Pesticide Regulation (DPR) staff will provide the Panel with a brief synopsis of the [July 9, 2020 presentation](#) to the Panel on 1,3-Dichloropropene (1,3-D or Telone), followed by an update on the current status of mitigation pilot studies being conducted in the AB 617 community of Shafter.*

*Following this update, the Panel will have an opportunity to hear public comment and discuss potential ways in which they might support air quality and health protection at the community level.*

**3. Informational Update Assembly Bill 617 Consultation Group Meetings.**

Update from the AB 617 Consultation Group member

*The AB 617 Consultation Group includes individuals representing environmental justice organizations, air districts, industry, academia, public health organizations, and local government. Its meetings provide an opportunity to discuss various aspects of Community Air Protection Program implementation. The Panel's representative in the group will provide an update on recent AB 617 Consultation Group meetings.*

*Following this update, the Panel will have an opportunity to hear public comment and discuss potential ways in which they might support air quality and health protection at the community level.*

Background information about AB 617 is available at: <https://ww2.arb.ca.gov/capp>

A March 2019 OEHHA/CARB memo on suggested roles of SRP in advising AB 617 is available at: [https://ww3.arb.ca.gov/srp/ab617\\_spr\\_2\\_26\\_19.pdf](https://ww3.arb.ca.gov/srp/ab617_spr_2_26_19.pdf)

**4. Informational Update on the Study of Neighborhood Air near Petroleum Sources (SNAPS) Program.**

Part I. SNAPS Program Overview from California Air Resources Board Staff

*The Study of Neighborhood Air near Petroleum Sources, or SNAPS, is a California Air Resources Board (CARB) program designed to study air quality in communities near oil and gas extraction and related facilities. SNAPS is an air monitoring effort that utilizes stationary trailers and mobile measurements to determine community exposure to emissions from all sources. SNAPS communities will receive a final report containing an analysis of the monitoring data and a health risk assessment prepared by OEHHA.*

*CARB staff will provide a brief overview of the SNAPS program, including background information and status updates regarding monitoring and planning activities in the communities of Lost Hills and Baldwin Hills, CA.*

*Following this update, the Panel will have an opportunity to hear public comment and discuss potential ways in which they might support air quality and health protection at the community level.*

Part II: Update from the Office of Environmental Health Hazard Assessment on Development of Provisional Values

*Many of the air toxics chemicals being monitored in CARB's SNAPS program do not have OEHHA-approved cancer potencies or noncancer reference exposure levels. In order to consider the emissions from chemicals that have not been assigned an approved health value, staff propose to assign provisional values to these chemicals. Staff from the Office of Environmental Health Hazard Assessment (OEHHA) provided an [overview of proposed methods for assigning provisional values](#) to chemicals at the July 9, 2020 SRP meeting; additional details will be provided in this follow-up presentation.*

*Following this update, the Panel will have an opportunity to hear public comment and discuss potential ways in which they might support air quality and health protection at the community level.*

**5. Consideration of administrative matters.**

*The Panel may discuss various administrative matters and scheduling of future meetings.*

THE AGENDA ITEMS LISTED ABOVE MAY BE CONSIDERED IN A DIFFERENT ORDER AT THE MEETING  
**INFORMATION ABOUT**

## **THE SCIENTIFIC REVIEW PANEL**

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the California Air Resources Board (CARB), the Office of Environmental Health Hazard Assessment (OEHHA) and the Department of Pesticide Regulation (DPR), and the review of risk assessment guidelines prepared by OEHHA. In carrying out this responsibility, the Panel reviews the exposure and health assessment reports, and the underlying scientific data on which the reports are based, which are prepared by CARB, DPR, and OEHHA pursuant to Health and Safety Code sections 39660-39661, 39669.5 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments. The Panel is also to be consulted in the implementation of Assembly Bill 617 (H&SC sections 42705.5(b) and 44391.2; Chapter 136, Statutes of 2017).

The Panel welcomes written comments or submissions from all parties regarding reports that are under review. Although written comments are accepted up to the day of a scheduled meeting, to assure adequate review the Panel requests that written comments and information be submitted to the Panel Liaison (contact information below) as early as possible prior to a scheduled meeting. Written comments may be submitted to Lori Miyasato at [Lori.Miyasato@arb.ca.gov](mailto:Lori.Miyasato@arb.ca.gov).

Transcripts to previously held Panel meetings and other information about the Panel can be found through the CARB web site at: <http://www.arb.ca.gov/srp/srp.htm>.

## **FOR FURTHER INFORMATION**

For further information regarding the content of the meeting agenda, please contact:  
Lori Miyasato, Panel Liaison, California Air Resources Board: E-mail: [Lori.Miyasato@arb.ca.gov](mailto:Lori.Miyasato@arb.ca.gov);  
Telephone: 916-324-9284.

If you require a special accommodation or need this document in an alternate format or language, please contact Lori Miyasato at [Lori.Miyasato@arb.ca.gov](mailto:Lori.Miyasato@arb.ca.gov) or (916) 324-9284 as soon as possible, but no later than 10 business days before the scheduled meeting.

TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.
