LEGAL BACKGROUND

- (1) Purpose. The California Health and Safety Code mandates CARB adopt regulations to achieve the maximum feasible reduction in volatile organic compounds (VOCs) by consumer products. (Health & Saf. Code § 41712.)
- (2) Regulation. CARB adopted the *Regulation for Reducing Emissions from Consumer Products* (Consumer Products Regulation) to reduce VOCs. (Cal. Code Regs., tit.17, §§ 94507 et seq.)
- (3) Regulatory Provisions. Any person who sells, supplies, offers for sale, or manufactures any consumer product for use in California shall comply with the standards set forth in the Consumer Products Regulation, including the VOC limit, ingredient prohibitions, labeling, reporting, displaying the date of manufacture, and other administrative requirements. (Cal. Code Regs., tit.17, §§ 94509–94515.) If anywhere on the container of any consumer product, the manufacturer represents that the product may be used or is suitable for a specific use in which a lower limit applies, the lowest applicable limit shall apply. (Cal. Code Regs., tit.17, § 94512(a).)
- (4) Penalty Provisions. Failure to comply with the regulatory requirements is a violation of state law that may result in penalties up to ten thousand dollars (\$10,000) for strict liability violations for each day in which the violation occurs. (Cal. Code Regs., tit.17, § 94507 et seq.; Health & Saf. Code §§ 39674, 39675, 42400 et seq., 42402 et seq., and 42410.)

CASE BACKGROUND

- (5) Corporate Entity. At all relevant times, Schaeffer was organized under the laws of Missouri as a General Business for Profit (Domestic) and conducted business in California.
- (6) Allegations. This Settlement Agreement settles Notice of Violation (NOV) CP20-06-02, which was issued on June 1, 2020. CARB alleged Schaeffer violated the Consumer Products Regulation by selling, supplying, offering for sale, or manufacturing for use in California, Schaeffer's Moly Hi-Visc Boom Lube that is

subject to and exceeded a VOC limit of 25 percent by weight for the Multi-purpose Lubricant category as outlined in Notice of Violation CP20-06-02. CARB alleges that if the allegations described in Paragraph 6 were proven, civil penalties could be imposed against Schaeffer for each and every day the noncompliant product was sold, supplied, offered for sale or manufactured for use in California.

- (7) Acknowledgment. Schaeffer admits to the facts in Paragraphs 5 and 6, but denies any liability resulting from said allegations.
- (8) Consideration. In consideration of the foregoing, and of the promises and facts set forth herein, the Parties desire to settle and resolve all claims, disputes, and obligations relating to the above-listed alleged violations and voluntarily agree to resolve this matter by means of this Settlement Agreement. In order to resolve the violations described herein, Schaeffer has taken, or agrees to take, the actions enumerated below within the Terms and Conditions. Further, CARB accepts this Settlement Agreement in termination and full settlement of this matter.

- (9) Settlement Amount. Schaeffer shall pay a civil penalty of four thousand six hundred and eighty-five dollars (\$4,685.00 USD). Schaeffer shall make all payments within 30 calendar days from the date CARB notifies Schaeffer of the full execution of the Settlement Agreement.
- (10) Civil Penalty Payment Method. Schaeffer shall pay the civil penalty by check, credit card, wire transfer, or portal, payable to CARB, using instructions provided separately by CARB in a Payment Transmittal Form. Schaeffer is responsible for all payment processing fees. Payments shall be accompanied by the Payment Transmittal Form to ensure proper application. CARB shall deposit the civil penalty amount into the Air Pollution Control Fund for the purpose of carrying out CARB's duties and functions to ensure the integrity of its air pollution control programs. Should payment instructions change, CARB will provide notice to Schaeffer in accordance with Paragraph 12 (Notices).

- (29) Authority. The undersigned represents that he or she has full authority to enter into this Settlement Agreement.

PENALTY BASIS

- (30) Per Unit Penalty. The strict liability per unit penalty in this case is a maximum of \$10,000 per violation per day under Health and Safety Code section 42400 et seq., 38580 for violations of the Consumer Products Regulation.

In cases like this, involving unintentional violations of the Consumer Products Regulations where the violator cooperates with the investigation, CARB has obtained penalties based on excess emissions. Penalties based on days of violation are also obtained in some cases. The violation in this case is for 0.234 tons of excess VOC, resulting in a penalty of \$20,000 per ton of excess VOC.

- (31) Emissions. The provisions cited above prohibit VOC emissions above a specified percentage for the specified product category. Since CARB has alleged that the product did not meet the regulatory requirements, the emissions above the specified percentage were in excess and illegal. In this case, a quantification of

the excess emissions attributable to the violations was practicable because Schaeffer made the sales data necessary to make this quantification available to CARB. Based upon this information (which Schaeffer has identified as confidential business information), the violations were calculated to have 0.234 tons of excess VOC emissions.

- (32) Aggravating and Mitigating Factors. The penalties in this matter were determined in consideration of all relevant circumstances, including statutory factors as described in CARB's Enforcement Policy. CARB considered whether the violator came into compliance quickly and cooperated with the investigation; the extent of harm to public health, safety and welfare; nature and persistence of the violation, including the magnitude of the excess emissions; compliance history; preventative efforts taken; innovative nature and the magnitude of the effort required to comply, and the accuracy, reproducibility, and repeatability of the available test methods; efforts to attain, or provide for, compliance prior to violation; action taken to mitigate the violation; financial burden to the violator; voluntary disclosure; and any other relevant circumstances. The penalties are set at levels sufficient to deter violations, to remove any economic benefit or unfair advantage from noncompliance, to obtain swift compliance, and the potential costs, risks, and uncertainty associated with litigation. Penalties in future cases might be smaller or larger depending on the unique circumstances of the case.
- (33) Confidential Business Information. CARB based this penalty in part on confidential business information provided by Schaeffer and confidential settlement communications, neither of which are retained by CARB in the ordinary course of business.
