

State of California  
AIR RESOURCES BOARD

**ERRATA**

The California Almanac of Emissions and Air Quality - 2013 Edition, published February 8<sup>th</sup>, 2014.

**PLEASE BE ADVISED** that Appendix D: Natural Sources, contains incorrect values for VOC emissions from Biogenic Sources:

1. In table D-1, "Statewide, Natural Source Emissions", "VOC" emissions in tons per day from "Biogenic sources" should be "2067" not "158" tons per day; the resulting value for "Natural Sources Total" should be "2433" not "524" tons per day;
2. The "VOC" emissions for each county, air basin, and district in Table D-2 "Natural Source Emissions - Biogenic Sources" have similarly been updated to reflect the changes described in Item 1.

The complete text of the California Almanac of Emissions and Air Quality - 2013 Edition, including the updates described above, is available on the Air Resources Board website at: <http://www.arb.ca.gov/aqd/almanac/almanac13/almanac13.htm>

Any questions regarding these corrections should be directed to Steve Zelinka, Manager, Emission Inventory Development Section at (916) 445-2199.
