

## CARB Railyard Emissions “Virtual” Listening Session

California Air Resources Board (CARB) staff invite you to participate in the Transportation and Toxic Division’s next listening session, which will be focused on the requested topic, **Railyards**. This session is the second of the toxics listening series.

### Meeting Information

The Railyard Listening Session is an opportunity to share with CARB staff your concerns, experiences, and/or suggestions for how CARB’s railyard-related efforts can benefit all Californians.

The Railyard Listening Session is scheduled to be held:  
**March 4, 2021** at 5:00 – 7:00pm.

(214) 765-0479  
(888) 278-0296 (US Toll Free)  
Conference Code: 900977

### Spanish Conference Call Info:

(866) 803-2146  
Participant Code: 1083550

### Background

CARB is developing a number of freight actions to help bring railyard-related equipment to zero emissions. Some of CARB’s current railyard-related efforts include:

- [In-Use Locomotive Regulation](#)
- [Truck vs. Train Emissions Analysis](#)
- [Zero-Emission Transport Refrigeration Units](#)
- [Advanced Clean Truck Fleets](#) (including [Drayage Trucks](#))
- [Zero-Emission Forklifts Measure](#)
- [Zero-Emission Cargo Handling Equipment](#)

Please come and share your input and how you think CARB can better address your community concerns and priorities. For any specific questions on railyard equipment or on any upcoming regulations, please submit your questions to our [survey](#).

Visit CARB’s [Reducing Rail Emissions in California](#) Page for more information.
