

5/4/2021

NRCS Diesel Engine Emissions Inventory Worksheet

Contract No.: [SIP ID: 3776]

Participant Name:

Service Center: Madera

Old Engine(s)

Equipment Function	Tractor	Engine Serial No.	[REDACTED]	Destruction Facility	A & S Metals
Vehicle Manufacturer	John Deere	EPA Engine Family		Destruction Location	644 E Olive Ave, Fresno
Vehicle Model	2640	Engine Fuel Type	Diesel, Non-Tier	Date Destroyed	5/27/2020
Equipment VIN	[REDACTED]	Horse Power	84	Verified By Name	[REDACTED]
Engine Make	Deere Power Systems Group Of	Annual Hours	1000	Verification Date	5/27/2020
Engine Model No.	5277981	Initial Hour			
Engine Model Year	1978	Meter Reading			

New Engine(s)

Equipment Function	Tractor	Engine Serial No.	[REDACTED]
Vehicle Manufacturer	John Deere	EPA Engine Family	KJDXL04.5315
Vehicle Model	5100ML	Engine Fuel Type	Diesel, Tier 4 Final
Equipment VIN	[REDACTED]	Horse Power	100
Engine Make	John Deere Power Systems	Annual Hours	1000
Engine Model No.	4045HLV78	Initial Hour	94
Engine Model Year	2019	Meter Reading	

OLD Tractor

 BASELINE IN-USE EQUIPMENT AND ENGINE WORKSHEET California Air Quality - CPS 372 Combustion System Improvement USDA Natural Resources Conservation Service			
The applicant is to complete a separate worksheet for each in-use equipment/engine See Instructions on the back before answering questions below			
Applicant Name: [REDACTED]			
1. Report the total acres this equipment/engine serves: 38		2. Years operated on these acres:	
3. Fuel Type <input checked="" type="checkbox"/> Diesel <input type="checkbox"/> B20 diesel <input type="checkbox"/> B100 biodiesel <input type="checkbox"/> Other:	4. Emissions Tier Level: <input checked="" type="checkbox"/> Non-Tier <input type="checkbox"/> Tier 1 <input type="checkbox"/> Tier 2	5. Describe the in-use equipment (check one): <input checked="" type="checkbox"/> Wheeled Tractor <input type="checkbox"/> Rubber-Tired Loader <input type="checkbox"/> Tracked Tractor <input type="checkbox"/> Rough-Terrain Forklift <input type="checkbox"/> Bulldozer <input type="checkbox"/> Stationary Diesel-Powered Irrigation <input type="checkbox"/> Portable Diesel-Powered Irrigation <input type="checkbox"/> Other:	
6. Name of Equipment/Engine Owner: [REDACTED]		7. Year Purchased: 1989	
8. Equipment Manufacturer: John Deere		14. Engine Manufacturer: JD-2640	
9. Equipment Model: 2640		15. Engine Model: 5277981	
10. Equipment Model Year: 2007		16. Engine Model Year: 1978	
11. Equipment VIN: [REDACTED]		17. Engine Serial No: [REDACTED]	
12. Annual Hours of Operation: 1000		18. Engine Horsepower (bhp): 84 hp / 75hp	
13. Annual Fuel Usage (gal/year): 492 gal		19. PTO Horsepower: (if applicable)	
20. EPA Engine Family Name: (For Tier 1 or 2, attach the ARB Executive Order) n/a			
21. Months in Operation: <input type="checkbox"/> January <input type="checkbox"/> February <input type="checkbox"/> March <input type="checkbox"/> April <input type="checkbox"/> May <input type="checkbox"/> June <input type="checkbox"/> July <input type="checkbox"/> August <input type="checkbox"/> September <input type="checkbox"/> October <input type="checkbox"/> November <input type="checkbox"/> December <input checked="" type="checkbox"/> Operates throughout the year			
22. The planned location on where the equipment/engine will be scrapped and properly disposed:			
23. The applicant is to provide two documents verifying engine and equipment ownership and one document verifying the equipment/engine operations over the previous 12-consecutive month period prior to the submittal of this worksheet and EQIP application.			
24. Additional Information: purchase ~1989-2014.			

Instructions
BASELINE IN-USE EQUIPMENT AND ENGINE WORKSHEET

1. **Report the total acres this equipment/engine serves:** The total acres this off-road mobile agricultural equipment operates on or the total acres being irrigated from the well powered by this diesel engine.
2. **Years Operated on these acres:** Approximate length of time the engine & equipment has been operating at this location.
3. **Fuel Type:** All fuels must be suitable for use in a compression-ignition engine and meet California Air Resources Board (CARB) standards. "Diesel" is represented as petroleum-based "CARB diesel" and may be blended with up to 5% biodiesel (B5). "B20 diesel" is petroleum-based CARB diesel blend of up to 20% biodiesel. "B100" is non petroleum-based biodiesel. More information on California diesel fuels may be found at: <http://www.arb.ca.gov/fuels/diesel/diesel.htm>.
4. **Emissions Tier Level:** Select "Non-Tier" for non-emissions certified or uncontrolled emissions diesel engines. Select "Tier 1" or "Tier 2" for emissions-certified diesel engines. Please consult your engine vendor.
5. **Describe the in-use equipment:** Check the box that best describes the in-use equipment. If "other", please describe (e.g. forage harvester, combine, sprayer, shaker, etc.).
6. **Name of Equipment/Engine Owner:** Identify ownership (see No. 23).
7. **Year Purchased:** The year the equipment was purchased by the owner (see No. 6 and No. 23)
8. **Equipment Manufacturer:** The equipment make. For example, Case IH, John Deere, Massey Ferguson, Ford, etc.
9. **Equipment Model:** The manufacturer's equipment model designation. For example, 1600, 3300, 294S, etc.
10. **Equipment Model Year:** The year in which the equipment was manufactured.
11. **Equipment VIN:** The equipment Vehicle or Product Identification Number (not the engine serial number).
12. **Annual Hours of Operation:** Report the engine's actual annual hours of operation on the acres reported, which will be used for estimating baseline operations. *Exaggerating hours may affect the project screening and ranking, or deem the project ineligible.*
13. **Annual Fuel Usage (gal/year):** The amount of fuel use yearly in gallons. Annual fuel consumption may be used for estimating the baseline annual hours of operation.
14. **Engine Manufacturer:** The make of the diesel engine (e.g. Cummins, John Deere, Perkins, Caterpillar, Fiat, Ford, etc.)
15. **Engine Model:** The model number of the in-use engine. For example, 6BTA5.9C.
16. **Engine Model Year:** The year the engine was manufactured (this can be different than the equipment model year).
17. **Engine Serial No.:** The engine serial number listed on the engine block or engine identification label.
18. **Engine Horsepower (bhp):** The manufacturer's rated advertised brake (or gross) horsepower. Do not report "net", "peak" or "PTO" horsepower. If not available, estimate engine horsepower by multiplying the PTO horsepower by 1.20.
19. **PTO Horsepower:** The advertised PTO horsepower if the equipment is equipped with a power take-off unit (e.g. a tractor).
20. **EPA Engine Family Name: *Only for Tier 1 or 2-certified diesel engines.*** Identify the engine family name assigned by the EPA. If available, attach the applicable CARB Executive Order for this engine, which should be available through your engine vendor or on-line at: www.arb.ca.gov/msprog/offroad/cert/cert.php.
21. **Months in Operation:** Select whether the in-use engine operates throughout the year or on specific months.
22. **The planned location on where equipment/engine will be scrapped and properly disposed:** Identify where the equipment/engine is planned for final destruction and disposal. Knocking a hole in the block only disables the engine and does not render the engine and equipment as being destroyed. Destruction and final disposal is at a mutually approved metal scrap yard location in California.
23. **Ownership and Operations Verification:** Provide two documents verifying ownership and one document verifying operation status for the existing equipment/engine. Ownership documents may include bill of sale, insurance records, bank appraisals, maintenance or service records, general ledgers, fuel records, or other documents. Operations documents may include maintenance or service records, usage records, routine inspections, hour meter reading logs, historical fuel usage logs, or other documents. Please refer to CPS 372-Specifications for more information.
24. **Additional Information:** Include any information pertinent to this equipment/engine, including and not limited to: evaluating other alternatives, whether incentive funds from other public or private programs are being sought in addition to this application, and/or attach applicable permits or documentation from a local air district.

PROPOSED NEW EQUIPMENT AND ENGINE/MOTOR WORKSHEET California Air Quality – CPS 372 Combustion System Improvement USDA Natural Resources Conservation Service														
 <p>The applicant is to complete a separate worksheet for each new equipment/engine/motor See Instructions on the back before answering questions below</p>														
Applicant Name: [REDACTED]														
1. Report the total acres this equipment/engine/motor will serve: 38														
2. Identify the county or counties this equipment/engine/motor will operate and the percent use for each county listed: Madera = 100%.														
3. Fuel Type <input checked="" type="checkbox"/> Diesel <input type="checkbox"/> B20 diesel <input type="checkbox"/> B100 biodiesel <input type="checkbox"/> Electric <input type="checkbox"/> Other:	4. Emissions Tier-Level: <input checked="" type="checkbox"/> Tier 3 ← <input type="checkbox"/> Tier 4 Interim <input checked="" type="checkbox"/> Tier-4 Final <i>FEL</i> <input type="checkbox"/> Electric: <i>the stand</i>	5. Describe the new equipment (check one): <input checked="" type="checkbox"/> Wheeled Tractor <input type="checkbox"/> Rubber-Tired Loader <input type="checkbox"/> Tracked Tractor <input type="checkbox"/> Rough-Terrain Forklift <input type="checkbox"/> Bulldozer <input type="checkbox"/> Stationary Diesel-Powered Irrigation <input type="checkbox"/> Portable Diesel-Powered Irrigation <input type="checkbox"/> Electric-Powered Irrigation <input type="checkbox"/> Other:												
6. Equipment Manufacturer: John Deere		12. Engine/Motor Manufacturer: John Deere												
7. Equipment Model: 5100ML		13. Engine/Motor Model: 4045PWL												
8. Equipment Model Year: 2015		14. Engine/Motor Serial No.: —												
9. Equipment VIN: —		15. Engine/Motor Model Year: 2015												
10. Annual Hours of Operation: 1,000		16. Engine (bhp) or Motor Horsepower: 100												
11. Annual Fuel Usage (gal/year): 492 gal		17. PTO Horsepower: (if applicable)												
18. EPA Engine Family Name: (Attach the applicable ARB Executive Order) FJDXLN.530E														
19. Months in Operation: <table style="width: 100%; border: none;"> <tr> <td><input type="checkbox"/> January</td> <td><input type="checkbox"/> February</td> <td><input type="checkbox"/> March</td> </tr> <tr> <td><input type="checkbox"/> April</td> <td><input type="checkbox"/> May</td> <td><input type="checkbox"/> June</td> </tr> <tr> <td><input type="checkbox"/> July</td> <td><input type="checkbox"/> August</td> <td><input type="checkbox"/> September</td> </tr> <tr> <td><input type="checkbox"/> October</td> <td><input type="checkbox"/> November</td> <td><input type="checkbox"/> December</td> </tr> </table> <input checked="" type="checkbox"/> Operates throughout the year			<input type="checkbox"/> January	<input type="checkbox"/> February	<input type="checkbox"/> March	<input type="checkbox"/> April	<input type="checkbox"/> May	<input type="checkbox"/> June	<input type="checkbox"/> July	<input type="checkbox"/> August	<input type="checkbox"/> September	<input type="checkbox"/> October	<input type="checkbox"/> November	<input type="checkbox"/> December
<input type="checkbox"/> January	<input type="checkbox"/> February	<input type="checkbox"/> March												
<input type="checkbox"/> April	<input type="checkbox"/> May	<input type="checkbox"/> June												
<input type="checkbox"/> July	<input type="checkbox"/> August	<input type="checkbox"/> September												
<input type="checkbox"/> October	<input type="checkbox"/> November	<input type="checkbox"/> December												
20. Cost Estimate of the New Equipment/Engine/Motor: [REDACTED]														
21. Describe the fuel source (i.e. location of fuel storage and dispensing system): Diesel														

Instructions
PROPOSED NEW EQUIPMENT AND ENGINE/MOTOR WORKSHEET

1. **Report the total acres this equipment/engine/motor will serve:** The total acres the proposed off-road mobile agricultural equipment will operate on or the total acres to be irrigated by the well powered by the proposed diesel engine or electric motor.
2. **Identify the county or counties where this equipment/engine/motor will operate and the percent use for each county:** Report 100% if the engine and equipment will operate only in a single county. For multiple counties, estimate percent annual usage for each county by dividing the hours of use in each county by the total annual hours and multiplying by 100.
3. **Fuel Type:** All fuels must be suitable for use in a compression-ignition engine and meet California Air Resources Board (CARB) standards. "Diesel" is represented as petroleum-based "CARB diesel" and may be blended with up to 5% biodiesel (B5). "B20 diesel" is petroleum-based CARB diesel blend of up to 20% biodiesel. "B100" is non petroleum-based biodiesel. More information on California diesel fuels may be found at: <http://www.arb.ca.gov/fuels/diesel/diesel.htm>. Select "Electric" for a new irrigation motor.
4. **Emissions Tier Level:** Select the appropriate Tier-level emissions certification of the new diesel engine. Select "Electric" for a new irrigation motor.
5. **Describe the new equipment:** Check the box that best describes the new equipment. If "other", please describe (e.g. forage harvesters, combines, sprayers, shakers, etc.). *A new engine powers equipment that will serve the same function and perform the same work to the equipment that's being replaced.* Replacements are intended to reduce emissions of air pollution and not for any production related purpose.
6. **Equipment Manufacturer:** The equipment make. For example, Case IH, John Deere, Massey Ferguson, Ford, etc.
7. **Equipment Model:** The manufacturer's equipment designation. For example, 1600, 3300, 294S, etc.
8. **Equipment Model Year:** The year in which the equipment was manufactured.
9. **Equipment VIN:** The equipment Vehicle or Product Identification Number (not the engine serial number).
10. **Annual Hours of Operation:** Report the engine's actual total annual hours of operation on the total acres reported. Exaggerating hours may affect the project screening or ranking, or deem the project ineligible.
11. **Annual Fuel Usage (gal/year):** The amount of fuel use yearly in gallons. Annual fuel consumption may be used for estimating the baseline annual hours of operation.
12. **Engine/Motor Manufacturer:** The make of the diesel engine or electric motor. Diesel engine examples include: Cummins, John Deere, Fiat, Caterpillar, etc.
13. **Engine/Motor Model:** The model number of the in-use engine. For example, 6BTA5.9C.
14. **Engine/Motor Serial No.:** The engine serial number listed on the engine block or engine ID label.
15. **Engine/Motor Model Year:** The year the engine was manufactured.
16. **Engine (bhp) or Motor Horsepower:** For diesel engines, the manufacturer's rated advertised brake (or gross) horsepower. **Do not** report "net", "peak", "drawbar" or "PTO" horsepower, and **do not** estimate new engine horsepower by multiplying PTO horsepower by 1.20. For electric motors, report the rated motor horsepower.
17. **PTO Horsepower:** The advertised PTO horsepower if the equipment is equipped with a power take-off unit (e.g. a tractor).
18. **EPA Engine Family Name:** Identify the engine family name assigned by the EPA and attach the applicable CARB Executive Order for this diesel engine, which should be available through your engine vendor or on-line at: www.arb.ca.gov/msprog/offroad/cert/cert.php.
19. **Months in Operation:** Select whether the equipment/engine/motor will operate throughout the year or by the month.
20. **Cost Estimate of the New Equipment/Engine/Motor:** Please attach an estimate that clearly itemizes the costs.
21. **Describe the fuel source:** Describe how the fuel or electricity will be supplied to the new engine. If the diesel engine will be fueled by biofuel or biofuel blends, please identify the vendor supplying the fuel

5. Existing In-Use Engine Verification and Emissions

Owner provided the following documentation (per 372 Specifications):

Verification of ownership

Verification of the in-use engine/equipment operational status

Existing Engine Emissions:	NOx	ROG	PM10
Existing #1 (tons/yr):	.784	.085	.039
Existing #2 (tons/yr):			
Total Emissions (tons/yr):	.784	.085	.039

6. Destruction:

After being replaced, the existing engine and mobile off-road agricultural equipment shall be rendered inoperable, permanently destroyed and scrapped. The owner shall assure destruction and provide the NRCS with a written certification that the engine and associated equipment has been permanently destroyed and scrapped. The certification must specify that no parts or components were or will be parted-out, used or sold as parts, or used to rebuild an engine or equipment that was intended for destruction. NRCS staff may follow-up with a site visit to verify engine and equipment destruction.

Additional Destruction and Disposal Requirements:

PRACTICE APPROVAL

Job Classification: This job is classified as Class: _____
Plan Approved by: _____ Date: 7/14/20

LANDOWNER'S/OPERATOR'S ACKNOWLEDGEMENT

The landowner/operator acknowledges that:

- a. He/she has received a copy of the drawings and specifications, and that he/she has an understanding of the contents and requirements.
- b. He/she has obtained all the necessary permits, where applicable.
- c. No changes will be made in the installation of the job without prior concurrence of the NRCS.
- d. Maintenance of the installed work is necessary for proper performance during the 10-year project life.

Accepted by: _____ Date: 5-01-2020

PRACTICE COMPLETION:

I have made an on-site inspection of the site (or I am accepting owner/contractor documentation), and certify the practice meets NRCS standards and specifications.

Completion Certification by:

/s/ _____ Date: _____

Air Quality - Combustion System Improvement
Off-Road/Stationary Diesel Engine Emissions Determination

Applicant Name: [Redacted]

Application Number: [Redacted]

Date: 2/27/2020

Existing Engine Emissions Calculations

Existing Engine: Manufacturer(s): John Deere
Engine Model Year(s): 1987
1980-1987 Diesel Equipment Type(s): Tractors, Diesel
Serial Number(s): [Redacted]

Baseline Emissions:	NOx	ROG	PM10	
Max Rated Brake Horsepower(s):	84	84	84	bhp maximum
Annual Hours of Operation: x	1000	1000	1000	Hours/Year
Emission Factor(s): x	12.090	1.310	0.605	g/bhp-hour
Load Factor(s): x	0.700	0.700	0.700	
Conversion to Tons: ÷	907,200	907,200	907,200	grams/Ton
Annual Emissions (EE) =	0.784	0.085	0.039	Tons/Year

New Engine Emission Calculations (Report as zero emissions if electric)

New Engine: Manufacturer: John Deere
Model Year Engine: 2019
Tier 4 Final Diesel Equipment Type: Tractors, Diesel
Serial Number (if available): 4045HLV78

New Engine Emissions:	NOx	ROG	PM10	
Max Rated Brake Horsepower:	100	100	100	bhp maximum
Annual Hours of Operation: x	1000	1000	1000	Hours/Year
Emission Factor: x	0.260	0.050	0.009	g/bhp-hour
Load Factor: x	0.700	0.700	0.700	
Conversion to Tons: ÷	907,200	907,200	907,200	grams/Ton
Annual Emissions (NE) =	0.020	0.004	0.001	Tons/Year

Calculation Results

	NOx	ROG	PM10	
Annual Emission Reductions: (EE)-(NE)=	0.764	0.081	0.039	Tons/Year
Percent Emission Reductions: [(EE-NE) / (EE)] x 100=	97.4	95.5	98.2	%

In-Use Off-Road Mobile Equipment Field Verification Worksheet

California Air Quality – CPS 372 Combustion System Improvement
 USDA Natural Resources Conservation Service

Contract No: [REDACTED] Date of Site Visit: 1/14/19
 Contract Name: [REDACTED]
 Field Office: Madera
 NRCS Verifier Name: T. Friedrich

In-Use Equipment and Engine Information

Equip Model Year: 1978 Year Purchased: _____
 Equipment Make: John Deere
 Equipment Model: 2640
 Equipment Type (Use): Diesel Tractor
 Equipment VIN: [REDACTED]
 Engine Manufacturer: JD
 Engine Model: 2640
 Engine Serial Number: [REDACTED]
 EPA Family Name: N/A
 Engine Model Year: 1978 Engine HP: 84
 Annual Hours of Use: 1,000 PTO HP: _____

Is the above information similar to what is described in the supplemental application worksheet submitted by the participant? If "No", update the project file accordingly. Yes No

Checklist

Check all that applies during the site visit to verify that the in-use unit (engine, equipment, and components) is fully functional and in operating condition (leave blank if not applicable):

- Yes No The unit appears to be well maintained and shows visible signs of in-use operations.
- Yes No The engine starts-up (battery is charged and connected) and powers the equipment as intended.
- Yes No The engine self-propels the equipment forwards and backwards with no drivetrain problems.
- Yes No If Tier-certified, the Engine Family Name and Model label is affixed to the engine *and* visible
- Yes No Fuel gauge, hour meter, oil pressure gauge, etc. are all functional.
- Yes No The tires have sufficient tread, hold air, and are not flat.
- Yes No Buckets, blades, hydraulics, rollers, 3-point hitch, PTO, etc. are in working order.
- Yes No Hydraulics show no leaks or blockages and are able to operate components as intended.
- Yes No The PTO was connected to an implement and demonstrated good working condition.
- Yes No The fuel tank is in usable condition with no visible leaks.
- Yes No Undercarriage is structurally sound with no signs of once being compromised.
- Yes No The unit has not been vandalized and no parts have been stripped or removed.
- Yes No Photographs were taken to be placed in the project file.

If "No" or "Blank", please explain on the back of this worksheet.

Verification Results

Yes No The in-use engine and equipment align with CPS 372 criteria and specifications

If "No", explain: _____

USDA		ENGINE/EQUIPMENT DESTRUCTION CERTIFICATION WORKSHEET	
California Air Quality – CPS 372 Combustion System Improvement USDA Natural Resources Conservation Service			
This worksheet serves to document that the engine/equipment identified below has been disabled by placing a hole in the block, permanently destroyed by shearing, crushing, or shredding into scrap metal, and properly disposed of as scrap metal at a California facility. No engine, drive-train components, hydraulics, and other essential engine or equipment components were or will be parted-out, used or sold as parts, or used to build or rebuild other engines or equipment. The completed certification worksheet shall be signed and submitted to the NRCS Field Office after destruction and final disposal.

Checklist

Check all that applies:

- Yes No The Engine Family Name and Model (type) label is affixed to the engine or equipment.
- Yes No The Engine Family Name and Model label is clearly visible.
- Yes No The Engine Family Name and Model match the applicable ARB Executive Order.
- Yes No The engine serial number label is affixed to the engine or equipment.
- Yes No The VIN (PIN) number label is affixed to the equipment.
- Yes No The non-resettable hour meter is functional and the total hours are recorded above.
- Yes No Photographs were taken to be placed in the project file.

(For San Joaquin Valley projects only):

- Yes No The participant was informed of and provided with the annual reporting documents.

If "No" or "blank", explain: I did not have them with me, will provide at a later date

Notes: _____

Verification Results

- Yes No The new equipment and engine aligns with CPS 372 criteria and specifications

If "No", explain: _____

 CALIFORNIA AIR RESOURCES BOARD	JOHN DEERE POWER SYSTEMS	EXECUTIVE ORDER U-R-004-0569 New Off-Road Compression-Ignition Engines
---	---------------------------------	---

Pursuant to the authority vested in California Air Resources Board by Sections 43013, 43018, 43101, 43102, 43104 and 43105 of the Health and Safety Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: That the following compression-ignition engines and emission control systems produced by the manufacturer are certified as described below for use in off-road equipment. Production engines shall be in all material respects the same as those for which certification is granted.

MODEL YEAR	ENGINE FAMILY	DISPLACEMENT (liters)	FUEL TYPE	USEFUL LIFE (hours)
2019	KJDXL04.5315	4.5	Diesel	8000
SPECIAL FEATURES & EMISSION CONTROL SYSTEMS			TYPICAL EQUIPMENT APPLICATION	
Electronic Control Module, Exhaust Gas Recirculation, Selective Catalytic Reduction-Urea, Electronic Direct Injection, Turbocharger, Charge Air Cooler, Oxidation Catalyst, Ammonia Oxidation Catalyst			Loaders, Tractor, Dozer, Pump, Compressor, Generator Set, Other Industrial Equipment	

The engine models and codes are attached.

The following are the exhaust certification standards (STD) and certification levels (CERT) for hydrocarbon (HC), oxides of nitrogen (NOx), or non-methane hydrocarbon plus oxides of nitrogen (NMHC+NOx), carbon monoxide (CO), and particulate matter (PM) in grams per kilowatt-hour (g/kw-hr), and the opacity-of-smoke certification standards and certification levels in percent (%) during acceleration (Accel), lugging (Lug), and the peak value from either mode (Peak) for this engine family (Title 13, California Code of Regulations, (13 CCR) Section 2423):

RATED POWER CLASS	EMISSION STANDARD CATEGORY		EXHAUST (g/kw-hr)					OPACITY (%)		
			NMHC	NOx	NMHC+NOx	CO	PM	ACCEL	LUG	PEAK
56 ≤ kW < 130	Tier 4 Final	OPTIONAL STD	0.19	0.40	N/A	5.0	0.02	N/A	N/A	N/A
		CERT	0.02	0.33	--	0.1	0.02	--	--	--

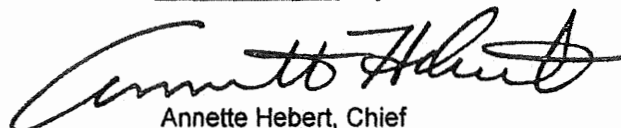

BE IT FURTHER RESOLVED: That for the listed engine models, the manufacturer has submitted the information and materials to demonstrate certification compliance with 13 CCR Section 2424 (emission control labels), and 13 CCR Sections 2425 and 2426 (emission control system warranty).

BE IT FURTHER RESOLVED: That for the listed engine models, the manufacturer has complied with the more stringent set of standards from the various power categories in conformance with Section 1039.230 (e) of the "California Exhaust Emission Standards and Test Procedures for New 2011 and Later Tier 4 Off-Road Compression Ignition Engines, Part I-D" adopted October 20, 2005 and last amended October 25, 2012.

Engines certified under this Executive Order must conform to all applicable California emission regulations.

This Executive Order is only granted to the engine family and model-year listed above. Engines in this family that are produced for any other model-year are not covered by this Executive Order.

Executed at El Monte, California on this 12 day of October 2018.

Annette Hebert, Chief
 Emissions Compliance, Automotive Regulations and Science Division

Engine Model Summary Form

EO#: U-R-004-0569

Manufacturer: John Deere Power Systems
Engine category: Nonroad CI
EPA Engine Family: KJDXL04.5315
Mfr Family Name: 350HCG
Process Code: New Submission

Attachment, Page 1 of 1

1. Engine code	2. Engine Model	3. kW@RPM (SAE Gross)	4. Fuel Rate: mm ³ /stroke@peak kW (for diesel only)	5. Fuel Rate: (kg/hr)@peak kW (for diesels only)	6. Torque (Nm) @RPM (SEA Gross)	7. Fuel Rate: mm ³ /stroke@peak torque	8. Fuel Rate: (kW/hr)@peak torque	9. Emission Control Device Per SAE J1930
