

**SCIENTIFIC REVIEW PANEL ON TOXIC AIR CONTAMINANTS  
NOTICE OF PUBLIC MEETING**

The Scientific Review Panel on Toxic Air Contaminants, established pursuant to California Health and Safety Code section 39670, will hold a public meeting at the following time and place:

**DATE:** July 17, 2000  
**TIME:** 12:00 p.m.  
**LOCATION:** Millberry Conference Center  
500 Parnassus Avenue  
University of California, San Francisco  
San Francisco, California 94143 (415) 476-2019

**-- AGENDA --**

**1. Briefing on recent action by the U.S. Environmental Protection Agency on chlorpyrifos**

*Department of Pesticide Regulation staff will describe recent proposed action by the U.S. Environmental Protection Agency to regulate chlorpyrifos and its impact on California.*

**2. Review of draft report: Air Toxics Hot Spots Program Risk Assessment Guidelines, Part IV: Technical Support Document "Exposure Assessment and Stochastic Analysis" (please see <http://www.oehha.ca.gov/air/crnr/notice-public-comment-period-draft-air-toxics-hot-spots-program-risk-assessment-guidelines> )**

*The Panel will discuss its review and possible action of the Part IV guideline report from the Office of Environmental Health Hazard Assessment (OEHHA) which describes exposure assessment methods, including guidance on stochastic analysis of exposure. The purpose of this document is to describe the methods that can be used for exposure analysis in the Air Toxics "Hot Spots" risk assessments (Health & Safety Code section 44360).*

**3. Review of substances to be added to: Air Toxics Hot Spots Program Risk Assessment Guidelines, Part III: Technical Support Document "Determination of Noncancer Chronic Reference Exposure Levels" (please see <http://www.oehha.ca.gov/air/air-toxics-hot-spots> )**

*Since its initial approval of the OEHHA report in February, the Panel continues its ongoing review of substances to be added to the report. In this meeting the Panel addresses an additional 21 substances. Part III describes the methods used to determine chronic reference exposure levels at (or below) which no adverse health effects are anticipated from exposure to the listed substances.*

THE AGENDA ITEMS LISTED ABOVE MAY BE CONSIDERED IN A DIFFERENT ORDER AT THE PANEL MEETING

**INFORMATION ABOUT  
THE SCIENTIFIC REVIEW PANEL**

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the Air Resources Board (ARB) and the Department of Pesticide Regulation (DPR). In carrying out this responsibility, the Panel reviews the exposure and health assessment reports and underlying scientific data on which the reports are based, which are prepared by the ARB, DPR, and the Office of Environmental Health Hazard Assessment (OEHHA) pursuant to Health and Safety Code sections

39660-39661 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments. The Panel welcomes written comments or submissions from all parties regarding a report. To assure adequate review, the Panel does not accept written or oral comments from the public at its meetings; comments and submissions should be submitted to the ARB pursuant to the requirements specified in the notice of availability of a report for public review. These submissions are received and carefully reviewed and considered by the Panel members prior to the public meeting. Transcripts to previously held Panel meetings can be found through the ARB web site [www.arb.ca.gov/srp/srp.htm](http://www.arb.ca.gov/srp/srp.htm). For further information please contact:
