The Mobile Source Certification and Compliance Fee regulation effort was initiated in response to new regulatory authority. AB 85 (2018) allowed CARB to adopt a schedule of fees to cover all or a portion of the State Board's reasonable costs. AB 85 (2018) authorized CARB to adopt a schedule of fees to recover reasonable costs from on-road vehicles and engines, removing the fee cap in HS Code 46319 for existing on-road vehicle and engine fees. The Mobile Source Certification Fee Regulation was approved by the Board in April 2021 and will be implemented beginning April 1, 2022. The regulatory support documents for the Mobile Source Certification and Compliance Fee regulation are available on the Reforms: Activity web page. This page summarizes the regulatory activity, outcomes, and other activities for the implementation of the Mobile Source Certification and Compliance Fee. For past regulatory activity, go here.

If you would like to participate in future meetings, or get future workshop announcements, subscribe to the Mobile Source Certification and Compliance Fee Regulation list. For general questions on this regulation, interested parties may contact Kathleen Moed.

On April 1, 2022, new and modified mobile source certification and compliance fees (MS Fees) will be due upon submittal of the application for mobile source certification. Complete applications for MS Fees, on-road and off-road vehicles/equipment, received prior to April 1, 2022, are subject to the MS fees. Based on current practices, on-road and off-road applications will undergo initial staff review to verify they are complete. For those applications received by CARB before April 1, 2022 and deemed incomplete, MS fees will be required before further processing occurs. Determination of completeness should be done within 30 days of application submittal.

How Do I Pay My Fees?
MS Fee Payment Process for Manufacturers

Step 1: Obtain your FISCAL Account Number
Before filing out an invoice request, obtain a Financial Information System for California (FISCAL) account number. For manufacturers who have paid certification fees to CARB after July 1, 2018, an account should have been created for you already in the FISCAL system. In addition, CARB created accounts for the active off-road aftermarket parts/component manufacturers who are subject to the new MS Fee program. For those manufacturers that do not know their FISCAL account number, please check with your organization's internal points of contact (POC) who are responsible for payment to obtain FISCAL account. To get more information about FISCAL click here. To obtain your FISCAL account, please follow the steps below:
