

# **Funding Year 2023-2024 Research Concept and Comment Survey**

Submit comments/concepts by June 15, 2022

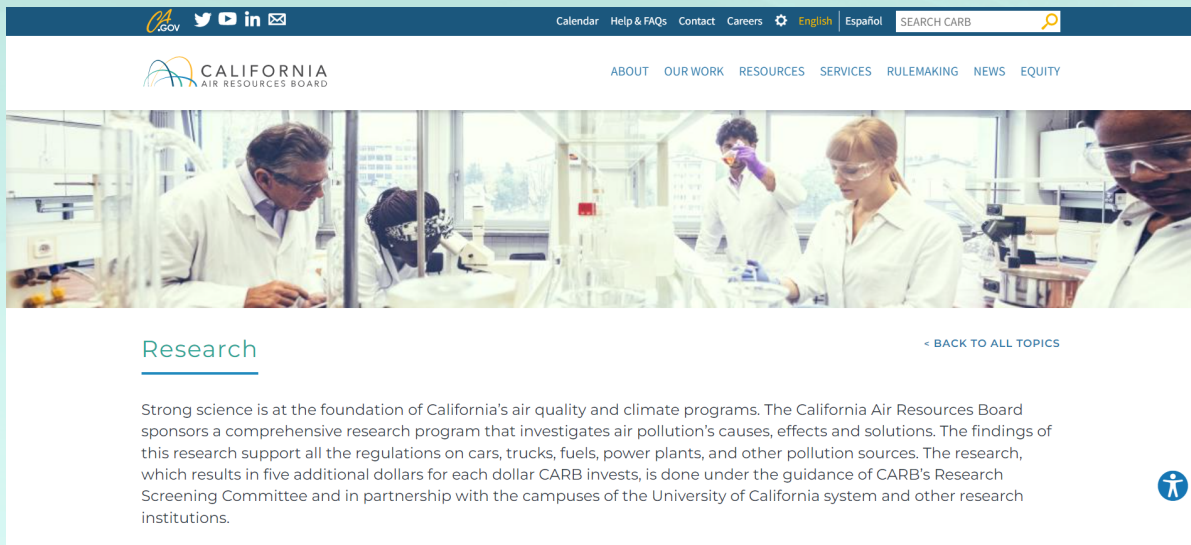

# Success through Science

- Leader in air quality and climate change +50 years
- Legislatively mandated Research Program
  - Scientifically sound rulemaking
  - Protects public health
  - Conduct key research using best available science and technology in key areas

# Resources

- Triennial Strategic Research Plan (2021-2024)
  - Developed with public process
  - Aids in research planning and outreach
  - Guides annual project selection
  - Delineates new priorities

- Research website
- Contract catalog
- Seminars
- Plain language summaries and outreach materials

# Annual Research Planning Process

## From Research Concept to Results

Identify Research Priorities

Develop Projects

Ask researchers for proposals

Officially start projects

Share results at project close

- Provide concepts or comments through our survey!
- CARB staff review and categorize concepts, create concepts from comments
- Present high priority items at public meeting
- Get approval from Board to move forward

# More on the survey

- What do we ask for? →

Comment	OR	Concept
General region General topic area Description of concern Interest in community-based science projects		Relevant topic areas Contact information Title, objective, problem addressed, proposed methods and expected results Cost

- What do we do with the comments and concepts?

Prioritize submissions

Stakeholder input

8-10 Projects ~ \$4M

- Is it timely?
- Does it meet program needs?
- Does it help meet anticipated challenges?
- Is it cutting edge?
- Does it take advantage of existing projects and funding?
- Does it have internal support?  
Public support?

# Next Steps

- Take the Survey!
  - Submissions due by June 15, 2022
- Sign up for our email listserv:
