## Session 8: Dairy and Livestock Greenhouse Gas Emissions Working Group and Subgroups Overview

Dan Weller, Staff Air Pollution Specialist California Air Resources Board

# California's Dairy and Livestock Greenhouse Gas Emissions Working Group

- SB 1383 required CARB, prior to adopting dairy and livestock sector regulations, to:
  - Work with stakeholders to addresses technical, market, and other barriers to development of dairy methane emissions reduction projects
  - Conduct research on dairy methane emissions reductions
  - Hold at least 3 public meetings across California
- In response, the 4 agencies shown at right convened a Working Group

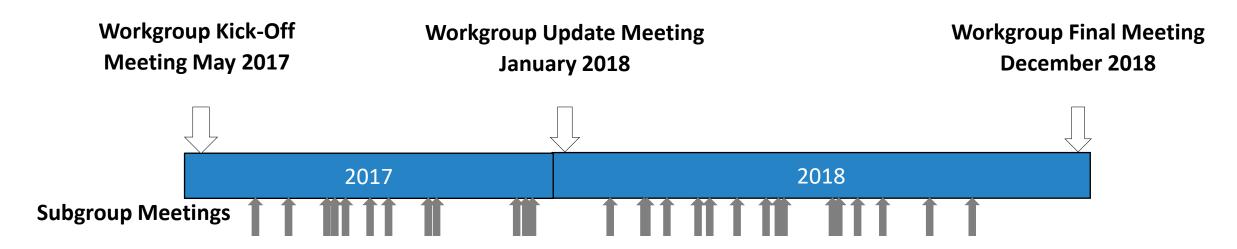

# Dairy and Livestock Greenhouse Gas Emissions Working Group Public Meetings
