Giles Pettifor, Environmental Manager
Port of Hueneme
333 Ponomo Street
Port Hueneme, California 93041
gpettifor@portofh.org

Dear Giles Pettifor,

Thank you for submitting the Port Plan (Plan) on behalf of the Port of Hueneme (North and South Terminal) to the California Air Resources Board (CARB) as required by the Control Measure for Ocean-Going Vessels At Berth ("Regulation"). CARB staff has reviewed your Plan submittal and has determined that it fulfills the requirements of the Regulation as set forth in section 93130.14(b). CARB considers the Plan complete, and no changes are necessary at this time.

An updated Terminal Plan for North Terminal (ro-ro vessels) is due by February 1, 2024, as set forth in section 93130.14(a)(2)(F) and can be submitted to CARB at shorepower@arb.ca.gov. These updated Plans must reflect any changes since the initial Plan. Once received, CARB will have 90 calendar days to review updated plan submissions for any deficiencies.

If any terminal at the Port that is currently designated as a low-activity terminal (receiving fewer than 20 visits per calendar year) exceeds the annual visit threshold, the Port must update the Port Plan and submit to CARB by July 1st the following year after the exceedance occurs. The information in the updated plan must reflect the information requested in section 93130.14(b)(3).

If any significant changes occur to any elements of your Port Plan, you may resubmit an updated Plan to CARB (shorepower@arb.ca.gov) at any time. *Additional information on Port and Terminal Plans can be found on CARB's website at: <https://ww2.arb.ca.gov/new-berth-regulation-implementation>.*

Sincerely,

Bonnie Soriano, Branch Chief, Freight Activity Branch
