Hello Guiseeppe,

Thank you for submitting the Terminal Plans on behalf of Everglades Terminal and WBCT – China Shipping at the Port of Los Angeles. CARB staff are reviewing the Plans, and noticed that neither Plan appears to contain approximate geographic boundary coordinates as required by the Regulation (section 93130.14(3)(C)). We would like to confirm the approximate geographic coordinates for all of the berths in both Plans with you, and would request you to kindly resubmit the Terminal Plans with the revised information for CARB’s record.
