

**Announcement for CARB Accreditation and
Verifier Accreditation Training for the LCFS
October 2022**

**CARB Verifier Accreditation Training for New Verifiers
Low Carbon Fuel Standard (LCFS)**

The California Air Resources Board (CARB) is accepting applications for accreditation of LCFS verification bodies and individual verifiers. Application forms and more information are available on the LCFS verification website at <https://ww2.arb.ca.gov/lcfs-verification>. CARB will screen individual verifier candidate applications, and approved individuals will be notified that they may enroll in required LCFS verifier accreditation training.

CARB will hold LCFS verifier accreditation training October 3-14, 2022, with self-paced on-line recorded lectures and weekly on-line live Q&A sessions. More information, including the schedule for on-line live Q&A sessions and suggested pacing of on-line recorded lectures can be found on the LCFS verification website. Candidates for lead verifier applying under section 95502(c)(3)(A)-(E) of the LCFS Regulation may opt out of Course 1 and are not required to take the general verification accreditation exam pursuant to LCFS Regulation section 95502(c)(3)(G). Applicants that do not currently meet the requirements for lead verifier should consider taking all six courses so that they can be accredited as a verifier and upgrade to lead verifier as soon as the experience requirements have been met. More information about the types of eligibility and LCFS accreditations is available in the FAQ posted on the LCFS verification website.

LCFS Verifier Accreditation Training Fees:

- \$1,400.00 for courses 2 through 6 (Fast-track option)
- \$1,750.00 for courses 1 through 6 (Non-fast-track option)

Verification bodies must email an Application for Verification Body Accreditation to CARB at lcfsverify@arb.ca.gov and include employees' Applications for Individual Verifier Accreditation in the package; including potential subcontractors in verification body packages is helpful for efficient screening by CARB. Verification bodies may choose to submit the templates required in section 95501(b)(1)(B) of the LCFS Regulation after verifier accreditation training, to finalize their accreditation package. Individuals planning to provide LCFS verification services that are not affiliated with a current verification body or verification body applicant must submit individual accreditation applications to CARB at lcfsverify@arb.ca.gov.

Please indicate whether the candidate intends to take Course 1, covering general verification and the required accreditation exam.

Applications are due to CARB for processing and approval before applicants can register for training during open enrollment. The enrollment period for 2022 training will close on September 25. Additional training will be offered in 2023.
