**APPLICATION FOR SAFE PASSAGE OF NONCOMPLIANT EQUIPMENT  
TRAVELING IN CALIFORNIA**

TTD/FTB-006 (REV. 08/2022) PAGE 2 OF 3

**INFORMATION**

---

A safe passage permit for a Transport Refrigeration Unit (TRU) or TRU generator set (gen set) owner to travel on California highways with a specific noncompliant TRU or TRU gen set may be approved. The purpose of traveling in California must be to take the noncompliant equipment to a dealer or installer to bring the equipment into compliance. Information submitted must be true, accurate, and complete. Submittal of false information is a violation of state law and subject to penalty. The following conditions must be met:

- The permit is a one-time permit for the sole purpose of bringing the TRU into compliance.
- The TRU or TRU gen set cannot be operating (with the engine running) in California.
- No temperature sensitive products can be transported in a vehicle with a noncompliant TRU or TRU gen set.

California Air Resources Board (CARB) will provide a decision within 15 days of receiving the application. If the application is approved, CARB will provide a safe passage permit specific to the one-time travel in California with the noncompliant equipment. If the application is not approved, CARB will notify the applicant of the decision and the noncompliant equipment cannot be brought into California.

**USE OF THE SAFE PASSAGE PERMIT**

The owner must provide the driver with a copy of the safe passage permit approved by the Executive Officer for the specific dates of travel.

During transit on California highways, the driver must, upon request:

- Present to the inspector the safe passage permit for the noncompliant TRU or TRU gen set approved by the Executive Officer, and
- Allow the inspector to inspect the TRU or TRU gen set to confirm the permit applies to the noncompliant equipment and to determine no temperature-sensitive products are being transported.

All circumstances at the time of inspection must be consistent with the safe passage permit.

The application can be electronically delivered by email to: [arber@arb.ca.gov](mailto:arber@arb.ca.gov)

The application can be mailed to:

California Air Resources Board  
Transportation & Toxics Division (TRU)  
P.O. Box 2815  
Sacramento, CA 95812
