boren.chambers@crowley.com

Dear Captain James B. Chambers:

On December 1, 2021, Intrepid Ship Management (Intrepid) submitted an application for an Innovative Concept (Application) as a compliance pathway for meeting the requirements of the At Berth Regulation pursuant to California Code of Regulations, title 17, section 93130.17. On October 31, 2022, the California Air Resources Board (CARB) staff contacted you to follow-up with you regarding your application status. During that phone call, you indicated that Intrepid has chosen to withdraw the Application from further consideration. We also received your follow-up email the same day which reiterates your withdrawal request. This letter acknowledges the request to withdraw Intrepid's Application and confirms the Application has been withdrawn from consideration and, as a result, denied.

Thank you for your interest in the Innovative Concept program. If you have any additional questions about this matter, please contact Jeff Jacobs, Air Resources Engineer, Marine Strategies Section, at Jeff.Jacobs@arb.ca.gov.

Sincerely,

Bonnie Soriano, Chief, Freight Activity Branch

cc: Jeff Jacobs, Air Resources Engineer, Marine Strategies Section
