Dear Sharon Lim,

Thank you for submitting the revised Terminal Plans on behalf of Tesoro for the Avon and Amorco Terminals to the California Air Resources Board (CARB) as required by the Control Measure for Ocean-Going Vessels At Berth ("Regulation"). CARB staff has reviewed your revised Plan submittals and have determined that the plans fulfill the requirements of the Regulation as set forth in section 93130.14(a). CARB considers the Plans complete, and no changes are necessary at this time.

Updated Terminal Plans for the Tesoro Avon and Amorco Terminals are due by February 1, 2026, as set forth in section 93130.14(a)(2)(F) and can be submitted to CARB at shorepower@arb.ca.gov. These updated Plans must reflect any changes since the revised Plans. Once received, CARB will have 90 calendar days to review updated plan submissions for any deficiencies.

If any significant changes occur to any elements of your Terminal Plans, you may resubmit an updated Plan to CARB (shorepower@arb.ca.gov) at any time. Additional information on Terminal Plans can be found on CARB's website at: <https://ww2.arb.ca.gov/new-berth-regulation-implementation>.

Sincerely,

Bonnie Soriano, Branch Chief, Freight Activity Branch
