## **Revocation Notice**

Retail Station Exemption Executive Order G-714-ADF-RE08 Famoso Travel Center

The California Air Resources Board (CARB) issued a Retail Station Exemption Executive Order(EO), G-714-ADF-RE08, under title 13, California Code of Regulations (CCR), section 2293.6(a)(5) for a Famoso Travel Center retail station located in McFarland, CA, in September of 2021: Alternative Diesel Fuels Regulation - Retail Fueling Station Exemption - Famoso Travel Center, LLC (ca.gov). This Executive Order, if complied with, would allow Famoso Travel Center to be exempt from biodiesel in-use requirements otherwise applicable under California's Regulation on the Commercialization of Alternative Diesel Fuels (ADF regulation, title 13, CCR, §§ 2293 – 2293.9 and Appendix 1 of Subarticle 2).

Under CARB EO G-714-ADF-RE08 and section 2293.6(a)(5)(E) of the ADF regulation, Famoso Travel Center was required to send quarterly reports to CARB staff (adf@arb.ca.gov) ) no later than the 30th of the month following the end of each calendar quarter of monthly sales volume and the ratio of DEF and diesel fuel for the station listed in Attachment 1 of the EO issued. The ratio of DEF and diesel fuel must not drop below 2.70 percent. If at any point the monthly sales volume ratio of DEF to diesel fuel drops below 2.70 percent, CARB may amend or revoke this Executive Order in order to ensure continued exemption eligibility and compliance.

Famoso Travel Center EO was approved on September 14, 2021 based on the DEF and diesel volume reported for the months of May, June and July of 2021 ratio at 3.00, 2.94 and 2.98 percent, relatively. After several reminder e-mail notices (January 7, May 5, August 4, 2022 and February 7, 2023), Famoso Travel Center submitted months of March to December 2022 data on February 28, 2023. The DEF to diesel volume ratio ranged from 1.20 to 1.96 percent with no single month meeting 2.70 percent.

Therefore, Famoso Travel Center is out of compliance with its G-714-ADF-RE08 and the ADF regulation, and CARB is revoking the EO G-714-ADF-RE08. In addition to having the EO revoked, CARB will potentially pursue associated enforcement action for not complying with the EO condition.

Executed at Sacramento, California, this <u>16th</u> day of <u>March</u>, 2023.
