Ms. Andrea Juarez, CARB Community Air Protection Program Liaison
Office of Community Air Protection
California Air Resources Board
9480 Telstar Ave., Suite 4
El Monte, CA 91731

Re: Final Report for AB 617 Community Air Protection Program (G17-CAPP-22)

Dear Ms. Juarez:

On the following pages are the Final Report elements specified in the AB 617 grant agreements between the California Air Resources Board and the Northern Sierra Air Quality Management District.

Please contact me or Sam Longmire of my staff (530-274-9360 x506 or saml@myairdistrict.com) with any questions or for additional information.

Sincerely,

Gretchen Bennitt,
Executive Director, Northern Sierra Air Quality Management District

Attachment: Accounting Summary of Funds Expended

Final Reports for AB 617 Community Air Protection Program (G19-CAPP-21)

Report Number: June 2022 (Final)

Title: Community Air Protection Program

Name of Grantee: Northern Sierra Air Quality Management District

Date of Submission: June 28, 2022

Grant Number: G19-CAPP-21

Report costs associated with specific tasks: \$16,015 (+ \$602 interest) for the Plumas County Fire Safe Council to provide chipping of green waste for residents in Plumas County in AB1550-designated low-income communities.

Report how grant is being utilized to meet goals of AB 617: The grant is being used to provide chipping of residential green waste in lieu of open burning and causing local PM emissions.

Open burning of green waste is the only option for residents to remove fire fuels from around their homes. The Plumas County Fire Safe Council provides a service to chip those fuels instead of open burning and causing PM emissions. In lower income communities residences tend to be closer together, which exacerbates the potential for health effects due to emissions from open burning. Thus, AB 617's key goals of reducing exposure to pollutants and improving air quality are both accomplished.

Summary of work completed: The Plumas County Fire Safe Council provided chipping throughout the County in the Spring of 2022.

Grant Funds remaining and expended: \$0.00 remaining; \$16,015 (+ \$602 interest) expended, for a total of \$16,617.

Expenditure summary: Funds were used to provide a chipping service to Plumas County residents. The service was directly provided by the Plumas County Fire Safe Council. Chipping reduced emissions of open burning.

Accounting summary of funds expended: See attachment.

Summary of how goals of the program have been achieved: Pollution exposures have been reduced; local air quality has been improved; and greenhouse gas emissions have been lowered. The open burning of green waste pollutes many times more than chipping the green waste.

Northern Sierra Air Quality Management District
