RECALL PLAN

Defendants agree to implement a recall program to buy back Defendants' non exempted parts purchased by or shipped to California address as follows:

1. The products subject to the recall are listed on the attached Exhibit B, which is attached hereto and incorporated herein by this reference.

2. The description of the nonconformity is the installation of Defendants' non-certified products.

3. The specific modifications, alterations, repairs, adjustments, or changes to be made to correct the vehicles or engines is the removal of Defendants' products and a full reimbursement to the end user of the original purchase price paid to Defendants as well as the cost of installation and removal as evidenced by receipt or sales record.

4. The method by which the Defendants will determine the names and addresses of product owners and the method and schedule for notifying the product owners of the recall is as follows: Defendants will email all customers who purchased Defendants' products for delivery to California to inform them of the recall and request that they return the products to Defendants for a refund as set forth in paragraph 3. Defendants will also send notice to all of Defendants' distributors that are believed to have sold Defendants' products into California and request that they provide customer information for customers who purchased Defendants' products for delivery to California to inform them of the recall.

5. The procedure to be followed by customers who purchased Defendants' products in California to obtain correction of the nonconformity is as follows: for customers that directly purchased and self-installed Defendants' products, Defendants shall provide specific instructions on the correct method to remove and then return Defendants' products; to the extent customers purchased Defendants' products from a third party and had that third party install the product(s), Defendants will instruct that the customers can return to the point of purchase to have the

1 product(s) removed. Defendants will also inform customers that they may bring their vehicle to
2 Defendants' St. George, Utah facility for removal of the products at no cost to the customer.

3 6. A copy of the notification to be sent to purchasers of Defendants' products is
4 attached hereto at Exhibit C.

5 7. The proper procedures for the removal and return shipping for all Defendants'
6 products subject to the recall is attached hereto at Exhibit D.

7 8. The impact of the proposed repairs on fuel economy, drivability, performance and
8 safety on the vehicles to which the recalled products were installed is that upon removal the
9 vehicle will return to the vehicle's manufacturer's original specifications, which will thereby
10 reduce the effect of increased emissions due to the installation of Defendants' products.

11 9. Defendants shall report on the progress of the recall campaign by submitting
12 subsequent reports to Chief, Mobile Source Operations Division, 9480 Telestar Ave., Suite 4, El
13 Monte, CA 91731 as follows: on or before October 25, 2014 for the period ending September 30,
14 2014; on or before January 25, 2015 for the period ending December 31, 2014; on or before April
15 25, 2015 for the period ending March 31 2015; on or before July 25, 2015 for the period ending
16 June 30, 2015; on or before October 25, 2015 for the period ending September 30, 2015; on or
17 before January 25, 2016 for the period ending December 31, 2015. The quarterly report shall
18 contain all the information specified in and will comply with title 13, section 2119 of the
19 California Code of Regulations, and shall be on the form attached hereto as Exhibit E.
