**STIPULATED SETTLEMENT;
[PROPOSED] ORDER**

Assigned: Hon. Robert L. Hess
Dept.: 24
Action Filed: February 17, 2015

This Stipulated Settlement is entered into by and between Plaintiff People of the State of California *ex rel.* State Air Resources Board (Air Resources Board), on the one hand, and Defendants Pacific Audio & Alarm, Inc. dba Pacific Performance Engineering and Joe Komaromi (erroneously sued as Joe Komaroni) (collectively Defendants), on the other hand.

After arm's length negotiations between the parties and their respective counsel, the parties have reached and entered into a settlement agreement by way of this Stipulated Settlement in a good faith effort to avoid the uncertainty and expense of protracted litigation. The Air

1 Resources Board believes that this settlement is in the best interests of the people of the State of

5 This Court has jurisdiction over the subject matter of this action and the parties to this
6 Stipulated Settlement.

17 Environmental Project to the San Joaquin Valley Air Pollution Control District for the School
18 Bus and Diesel Emission Reduction Supplemental Environmental Project. Payment shall be
19 made to the "San Joaquin Valley Air Pollution Control District" and "For School Bus and Diesel

28 subsection a.

1 e. A fifth payment shall be made by July 5, 2017 totaling \$43,750.00 to the Air

c. Defendants are further ordered to develop and implement an exchange program to ensure that its distributors, dealers, and customers understand which aftermarket parts are legal or illegal for specific applications, including street use, off-road use, and for racing-only vehicles as set forth herein. The exchange program shall further include that, for a period of one (1) year following the effective date of this Stipulated Settlement, Defendants will conspicuously post a notice on all maintained websites that contains the substantive provisions of the attached Notice at Exhibit A, which is incorporated by reference herein, and state that it applies to the parts identified on Exhibit C hereto. As part of the exchange program, Defendants shall maintain and report quarterly to the Air Resources Board to the person(s) listed as accepting notice under paragraph 15 of this agreement all verifications, exchanges, and services provided pursuant to the exchange program, including but not limited to unique vehicle identifying information, customer information, pre-exchange part numbers, post-exchange part numbers, all EO number labels issued, and date of issue/exchange/service. For each verification by PPE resulting in issuance of an EO number label, PPE will certify and document, under the penalty of perjury, that the part has been exempted and issued an EO.

4. Dismissal of the Entire Action

The Air Resources Board shall file a request for dismissal without prejudice of the entire Action as to all parties and all causes of action within ten (10) days after confirmation that the Court will retain jurisdiction as set forth herein to enforce the terms of this Stipulated Settlement pursuant to section 664.6 of the California Code of Civil Procedure and confirmation and receipt of the first required payment from Defendants, identified in paragraph 2a, whichever is later. There will be no further notice required.

EXHIBIT A

**NOTICE OF COMPLIANCE PLAN EXCHANGE TO BE CONSPICUOUSLY POSTED
ON MAINTAINED WEBSITES**

**ATTENTION: NOTICE OF EXCHANGE
OF PPE PERFORMANCE PRODUCTS**

Please read this NOTICE carefully. It could affect your rights.

Dear Valued Customer,

The State of California prohibits the sale, advertisement, or installation of an aftermarket part that alters or modifies the original design or performance of a motor vehicle's pollution control devices or systems, unless the aftermarket part has first been exempted from the state's anti-tampering laws and been issued an Executive Order (EO) number by the California Air Resources Board (ARB).

You may have purchased and installed an aftermarket diesel exhaust system product manufactured by PPE that has not been exempted by the California Air Resources Board. Therefore, such products are not legal for use on any on- or off-road non-racing vehicle in California and may be releasing air pollutants that exceed California emission standards. If pulled over by local law enforcement, your vehicle will fail a vehicle inspection due to the lack of a legal exhaust system and an EO number label, and you may consequently be cited.

In addition, California law prohibits the operation of any vehicle that is not properly equipped and requires the Department of Motor Vehicles (DMV) to refuse registration, or renewal or transfer of registration of all vehicles that fail to comply with ARB regulations. Whenever DMV revokes the registration of your vehicle, you must immediately return all documents and other evidence of registration to DMV.

To prevent this from happening, we have instituted an exchange program for PPE products that were not covered by an EO as of the date of sale or installation. At our expense, PPE will exchange such PPE products with separate/new PPE products that have been issued an ARB EO number, or, where applicable, PPE will verify EO status and install valid EO labels on corresponding PPE products. The list below shows the PPE part numbers and the date each part number was issued an EO.

If you have a PPE product that was not covered by an EO as of the date of sale or installation, you have the option of sending us the product for exchange or making an appointment with us at our store. Once we verify your product and any exemption status, if applicable, we will exchange the product or apply the appropriate EO number label to the product. For each verification by PPE resulting in issuance of an EO number label and not a new PPE product, PPE will certify and document, under the penalty of perjury, that the part has been exempted and issued an EO. Please contact us directly by mail at 303 N. Placentia Ave, Fullerton, CA 92831, by email at

1 joe@pacificp.com, or by phone at (714) 985-4825, to begin this process. Failure to do so could
2 also affect your vehicle's coverage under any applicable emission warranty.

3 **In order to ensure your full protection under the emission warranty provisions, it is**
4 **recommended that you have any PPE product, which has not been exempted by the**
5 **California Air Resources Board as of the date the product was sold or installed, removed**
6 **from your vehicle and exchanged as provided herein as soon as possible. Failure to do so**
7 **could be determined as lack of proper maintenance of your vehicle or engine. Consult your**
8 **vehicle's owner's manual for further warranty information.**

9 We thank you for your loyalty as a customer and we trust that our efforts will provide you with
10 the continued satisfaction and performance that you have come to expect from all PPE products.
