

SETTLEMENT AGREEMENT AND RELEASE

This SETTLEMENT AGREEMENT AND RELEASE (hereinafter "Agreement") is entered into between the STATE OF CALIFORNIA AIR RESOURCES BOARD (hereinafter "ARB") 1001 I Street, Sacramento, California 95814, and WESTSIDE WASTE MANAGEMENT COMPANY, INC., 274 E. Cedar Street, Taft, CA 93268.

I. RECITALS

- (1) California Health and Safety Code (*H&SC*) Section 44011.6 established the Heavy Duty Vehicle Inspection Program (HDVIP). It authorizes ARB to inspect on-road heavy-duty vehicles for excessive smoke emissions and engine tampering and to issue citations, accordingly. The program also requires the vehicle owner to repair its engines that exceed the prescribed ARB smoke opacity standards, perform a post-repair opacity test, and submit proof of repairs and any assessed penalties under the Regulations of the Heavy-Duty Smoke Inspection Program, Chapter 3.5, Sections 2180-2188, Title 13, California Code of Regulations (CCR).
- (2) *H&SC* Section 43701 provides that ARB shall adopt regulations that require owners or operators of heavy-duty diesel motor vehicles to perform regular inspections of their vehicles for excess smoke emissions.
- (3) Title 13, CCR sections 2190 et seq. was adopted under the authority of *H&SC* section 43701 and, with limited exceptions, which are not applicable here, apply to all heavy-duty diesel powered vehicles with gross vehicle weight ratings greater than 6,000 pounds that operate on the streets or highways within the State of California.
- (4) Title 13, CCR sections 2190 et seq. authorize the Periodic Smoke Inspection Program (PSIP) which requires the owners and operators of California based vehicle fleets of two or more heavy duty diesel motor vehicles with gross vehicle weight ratings greater than 6,000 pounds that operate on the streets or highways within the State of California to conduct annual smoke opacity inspections of their vehicles that are four years older than the model year of the vehicle's engine.
- (5) Title 13, CCR section 2192 (a) requires inter alia that the owner of the vehicle "[t]est the vehicle for excessive smoke emissions periodically according to the inspection intervals specified in section 2193 (a), (b), and (c)", "[m]easure the smoke emissions for each test...", "[r]ecord the smoke test opacity levels and other required test information as specified in section 2194..." and "[k]eep the records specified in section 2194 for two years after the date of inspection."

SETTLEMENT AGREEMENT AND RELEASE
ARB and WESTSIDE WASTE MANAGEMENT COMPANY INC.
Page 2 of 7

- (6) H&SC Section 43016 states, "Any person who violates any provision of this part, or any order, rule, or regulation of the state board adopted pursuant to this part, and for which violation there is not provided in this part any other specific civil penalty or fine, shall be subject to a civil penalty of not to exceed five hundred dollars (\$500.00) per vehicle."
- (7) The ARB considers testing, measuring, recording, and recordkeeping to be critical components in reducing excessive smoke emissions from these heavy-duty vehicles.
- (8) Under authority of California Health and Safety Code, section 39601 and 39660, Title 13, CCR, Sections 2020 and 2021 *et seq.* requires owners of diesel fueled solid waste collection vehicles over 14,000 pounds gross vehicle weight with model-year engines 1960 to 2006 used to collect solid waste to use best available control technology for each solid waste collection vehicle in the active fleet. Records of the installed diesel emission control strategies and corresponding compliance plan must be accessible at the terminal. Each solid waste collection vehicle must have a legible and durable label with complete and accurate information affixed to the driver's side doorjamb or another readily accessible location known to the driver.
- (9) The ARB contends that Westside Waste Management Company, Inc. (WWMCI) failed to install best available control technology to a solid waste collection vehicle in its fleet according to the implementation schedule outlined in Title 13, CCR, Sections 2021 *et seq.* at their terminal in Taft, California.
- (10) Health and Safety Code, Sections 39674 (a) and (b) authorize civil penalties for the violation of the programs for the regulation of toxic air contaminants not to exceed one thousand dollars (\$1,000.00) or not to exceed ten thousand dollars (\$10,000.00) respectively, for each day in which the violation occurs.
- (11) Title 13 CCR, section 2025(e)(1)(B) states: "Starting January 1, 2012, for all vehicles with GVWR greater than 26,000 lbs, excluding school buses, fleets must meet the requirements of section 2025(g) or fleets that report may instead comply with the phase-in option of section 2025(i)."
- (12) Failure to comply with the requirements of title 13 CCR, section 2025 is a violation of state law resulting in penalties. California HSC sections 39674(a) and (b) authorize civil penalties for the violation of the programs for the regulation of toxic air contaminants not to exceed one thousand dollars (\$1,000) or ten thousand dollars (\$10,000), respectively, for each day in which the violation occurs.

- (13) WWMCI has elected to meet the requirements of the Engine Model Year Compliance Schedule provided for in title 13 CCR, section 2025(g).
- (14) Title 13 CCR, section 2025(g) requires that owners of diesel vehicles with a GVWR greater than 26,000 lbs. meet PM BACT requirements for all 1996 through 1999 engine model years by January 1, 2012.
- (15) In order to resolve these alleged violations, WWMCI has taken, or agreed to take, the actions enumerated below under "RELEASE". Further, the ARB accepts this Agreement in termination and settlement of this matter.
- (16) In consideration of the foregoing, and of the promises and facts set forth herein, the parties desire to settle and resolve all claims, disputes, and obligations relating to the above-listed violations, and voluntarily agree to resolve this matter by means of this Agreement. Specifically, the ARB and WWMCI agree as follows:

II. TERMS & RELEASE

In consideration of the ARB not filing a legal action against WWMCI for the alleged violations referred to above, and WWMCI's payment of the penalties set forth in Section 1 below, the ARB and WWMCI agree as follows:

- (1) Upon execution of this Agreement, the sum of one thousand five hundred dollars (**\$1,500.00**) shall be paid on behalf of WWMCI by **January 29, 2013** following execution of this agreement, as follows:
 - **\$ 1,125.00** made payable to the **California Air Pollution Control Fund**
 - **\$ 375.00** made payable to the **Peralta Community College District**

All payments and documents shall be sent to the attention of:

Ms. Allison Spreadborough, Air Pollution Specialist
Air Resources Board, Enforcement Division
P.O. Box 2815
Sacramento, CA 95812

- (2) WWMCI shall not violate H&SC sections 43701 *et seq.* and 44011.6 *et seq.* and Title 13, CCR Sections 2180 *et seq.*, 2190 *et seq.*, and 2485 *et seq.*
- (3) WWMCI shall comply with one or both of the following options to attend the CCDET II class (Diesel Exhaust After Treatment and Maintenance), described on the ARB's webpage <http://www.arb.ca.gov/enf/hdvp/ccdet/ccdet.htm>. This class is conducted by various California Community Colleges and instructs attendees

on California's emission regulations and the proper care and maintenance of Diesel Exhaust After Treatment Systems (DEATS).

(a) WWMCI shall have the fleet maintenance manager (or equivalent) and all staff responsible for maintenance of DEATS attend the CCDET II class. Proof of CCDET II completion shall be provided to ARB within six months of the date of this Agreement and also be maintained in each applicable employee's file for the term of his or her employment.

(b) In case WWMCI uses a contractor for the maintenance of DEATS, in addition to having the fleet maintenance manager (or equivalent) attend the CCDET II course, WWMCI shall obtain proof that the contractor's staff maintaining the DEATS device(s) completed the CCDET II course within the last four years. This proof of the CCDET II completion shall be provided by WWMCI to the ARB within six months of the date of this settlement and be maintained with the DEATS installation and maintenance records.

- (4) WWMCI shall complete Low NOx Software Upgrades (reflash) on all applicable heavy-duty diesel engines operating in California and report to the ARB within 45 days of this agreement.
- (5) Each 1974 or newer diesel powered heavy-duty vehicle in the WWMCI fleet shall comply with the emission control label (ECL) requirements set forth in the CCR, Title 13, Section 2183 (c).
- (6) Each SWCV shall comply with the label requirements set forth in Title 13, CCR, Section 2021.2(f)(2) within 30 days of this Agreement.
- (7) WWMCI shall maintain compliance with the Solid Waste Collection Vehicle Rule. WWMCI shall keep records of installed diesel control strategies and update the compliance plan accordingly. WWMCI shall submit an updated compliance plan demonstrating compliance with the Solid Waste Collection Vehicle Rule to Ms. Allison Spreadborough, at the California Air Resources Board, Enforcement Division, P.O. Box 2815, Sacramento, CA 95812 within 45 days of this Agreement.
- (8) WWMCI shall instruct all employees who operate diesel-fueled vehicles to comply with the idling regulations set forth in CCR, Title 13, Section 2485, within 45 days of this Agreement.
- (9) WWMCI shall not violate the Truck and Bus regulation as codified in title 13 CCR, section 2025.
- (10) This Agreement shall apply to and be binding upon WWMCI, and its officers, directors, receivers, trustees, employees, successors and assignees, subsidiary

and parent corporations and upon ARB and any successor agency that may have responsibility for and jurisdiction over the subject matter of this Agreement.

- (11) This Agreement constitutes the entire agreement and understanding between ARB and WWMCI concerning the subject matter hereof, and supersedes and replaces all prior negotiations and agreements between ARB and WWMCI, concerning the subject matter hereof.
- (12) No agreement to modify, amend, extend, supersede, terminate, or discharge this Agreement, or any portion thereof, is valid or enforceable unless it is in writing and signed by all parties to this Agreement.
- (13) Severability. Each provision of this Agreement is severable, and in the event that any provision of this Agreement is held to be invalid or unenforceable, the remainder of this Agreement remains in full force and effect.
- (14) This Agreement shall be interpreted and enforced in accordance with the laws of the State of California, without regard to California's choice-of-law rules.
- (15) This Agreement is deemed to have been drafted equally by the Parties; it will not be interpreted for or against either party on the ground that said party drafted it.
- (16) Senate Bill 1402 (Dutton, Chapter 413, statutes of 2010) requires the ARB to provide information on the basis for the penalties it seeks (see Health and Safety Code section 39619.7). This information, which is provided throughout this settlement agreement, is summarized here.

The manner in which the penalty amount was determined, including a per unit or per vehicle penalty.

Penalties must be set at levels sufficient to discourage violations. The penalties in this matter were determined in consideration of all relevant circumstances, including the eight factors specified in Health and Safety Code sections 42403 and 43024.

SWCV Rule Violations

The per vehicle penalty for the SWCV violations involved in this case is a maximum of \$1,000 per vehicle per day for strict liability violations or \$10,000 per vehicle per day for negligent or intentional violations. The penalty obtained for the SWCV violations involved in this case is \$1,500.00 or \$750 per vehicle per violation for one truck for an unspecified number of days. The penalty was discounted based on the fact that this was a first time violation and the violator made unusually diligent efforts to comply and to cooperate with the investigation.

The provision of law the penalty is being assessed under and why that provision is most appropriate for that violation.

SWCV Violations

The penalty provision being applied for the Solid Waste Collection Vehicle Rule (Title 13, CCR, section 2020 *et seq.*) violations is HSC section 39674. The SWCV rule is a Toxic Air Contaminant Control Measure adopted pursuant to authority contained in HSC Section 39660, *et seq.* and because WWMCI failed to install best available control technology for one vehicle by the implementation deadlines as required by the Solid Waste Collection Vehicle Rule during the years 2010 through 2011 over an unspecified number of days.

Is the penalty being assessed under a provision of law that prohibits the emission of pollution at a specified level, and, if so a quantification of excess emissions, if it is practicable to do so.

The provisions cited above do prohibit emissions above a specified opacity or level of g/hp-hr. However, since the hours of operation of the non-compliant units involved and their individual emission rate are not known, it is not practicable to quantify the excess emissions.

- (17) WWMCI acknowledges that ARB has complied with SB 1402 in prosecuting and settling this case. Specifically, ARB has considered all relevant facts, including those listed at HSC section 43024, has explained the manner in which the penalty amount was calculated, has identified the provision of law under which the penalty is being assessed and has considered and determined that this penalty is being assessed under a provision of law that prohibits the emission of pollutants at a specified level.
- (18) Penalties were determined based on the unique circumstances of this matter, considered together with the need to remove any economic benefit from noncompliance, the goal of deterring future violations and obtaining swift compliance, the consideration of past penalties in similar cases, and the potential costs and risk associated with litigating these particular violations. Penalties in future cases might be smaller or larger on a per unit/vehicle basis.
- (19) The penalty was based on confidential settlement communications between ARB and WWMCI that ARB does not retain in the ordinary course of business either. The penalty is the product of an arms length negotiation between ARB and WWMCI and reflects ARB's assessment of the relative strength of its case against WWMCI, the desire to avoid the uncertainty, burden and expense of litigation, obtain swift compliance with the law and remove any unfair advantage that WWMCI may have secured from its actions.

(20) Now therefore, in consideration of the payment on behalf of WWMCI to the California Air Pollution Control Fund and the Peralta Community College District, the ARB hereby releases WWMCI and their principals, officers, agents, predecessors and successors from any and all claims, the ARB may have or have in the future based on the circumstances described in paragraph (1) through (16) of the Recitals. The undersigned represent that they have the authority to enter into this Agreement
