**Workshop Purpose:** The California Air Resources Board (CARB or Board) staff invite you to participate in a virtual public workshop to provide input on CARB’s planning for the development of zero-emission space and water heater standards. These standards will seek to reduce greenhouse gas (GHG) and smog-forming nitrogen oxides (NOx) emissions from new space and water heaters sold in the state to help meet California’s climate goals and federal air quality standards. At this workshop, staff will inform the public on the engagement process, initial regulatory concepts under development, and staff analysis work underway to develop zero-emission GHG space and water heater standards. This workshop is one in a series of workshops and focused meetings with interested parties that CARB will be hosting to inform the rulemaking process for zero-emission space and water heater standards.

| <b>Time</b>             | <b>Agenda Item</b>  | <b>Presenter</b>   |
|-------------------------|---|--|
| 9:00 - 9:15 a.m.        | <b>1. Welcome and Introduction</b>  | Dana Papke Waters, CARB  |
| 9:15 - 9:25 a.m.        | <b>2. Public Engagement</b>   | Emma Tome, CARB  |
| 9:25 - 9:30 a.m.        | <b>3. Regulatory Concepts</b>   | Dana Papke Waters, CARB  |
