

SETTLEMENT AGREEMENT

This Settlement Agreement is entered into between the California Air Resources Board (CARB), with its principal location at 1001 I Street, Sacramento, California 95814; and BakeMark USA LLC (BakeMark), with its principal location at 7351 Crider Avenue, Pico Rivera, California 90660 (collectively, the "Parties," or individually, "Party").

LEGAL BACKGROUND

- (1) Purpose. The Global Warming Solutions Act of 2006 mandates CARB to adopt regulations to reduce greenhouse gas emissions and to enforce those regulations. (Health & Saf. Code §§ 38560, 38562, and 38580). CARB is also mandated to reduce hydrofluorocarbon emissions by 40% below 2013 levels by 2030. (Health & Saf. Code § 39730.5.)
- (2) Regulation. CARB adopted the regulation, *Management of High-Global Warming Potential Refrigerants for Stationary Sources* (RMP Regulation) to reduce hydrofluorocarbon emissions from stationary, non-residential refrigeration equipment and from the installation and servicing of stationary refrigeration and air-conditioning appliances using high global warming potential (high-GWP) refrigerants. (Cal. Code Regs., tit. 17, §§ 95380-95398.)
- (3) Regulatory Provisions. Any person who owns or operates a stationary refrigeration system; or installs, repairs, maintains, services, replaces, recycles, or disposes of stationary refrigeration or air-conditioning appliances; or distributes or reclaims refrigerants with high-GWP, must comply with the applicable requirements of the RMP Regulation. (Cal. Code Regs., tit. 17, § 95381.)
- (4) Penalty Provisions. Failure to comply with the regulatory requirements is a violation of state law that may result in penalties up to eleven thousand seven hundred ten dollars (\$11,710.00 USD) for strict liability violations, for each day in which the violation occurs. (Cal. Code Regs., tit. 17, § 95380 et seq.; Health & Saf. Code §§ 38580, 42400 et seq., 42402 et seq., 42410, and 42411.)

- (5) Corporate Entity. At all relevant times, BakeMark was organized under the laws of Delaware as a limited liability company and registered with the California Secretary of State to conduct business in the State of California.
- (6) Allegations. CARB alleges that BakeMark violated the RMP Regulation by owning or operating a stationary refrigeration system after January 1, 2011, as defined by the RMP Regulation with a full charge of greater than 50 pounds but less than but less than 2,000 pounds, and failing to pay annual implementation fees on time (Cal. Code Regs., tit. 17, § 95384 (b)); failing to conduct leak

detection and monitoring every three months using a refrigerant leak detection device, bubble test, or observation of oil residue, where applicable (Cal. Code Regs., tit. 17, § 95385); and failing to submit annual reports on time (Cal. Code Regs., tit. 17, § 95388), resulting in an unspecified number of days of violations, as outlined in Notice of Violation 2022-BAKEM-457-001. (Cal. Code Regs., tit. 17, § 95380 et seq.) CARB alleges that if paragraphs 1 through 6 were proven, civil penalties could be imposed against BakeMark for each and every unit involved in the violations and each day.

In order to resolve the violations described herein, BakeMark has taken, or agrees to take, the actions enumerated below within the Terms and Conditions. Further, CARB accepts this Settlement Agreement in termination and full settlement of this matter.

PENALTY BASIS

- (30) Per Unit Penalty. Code Regs., tit. 17, § 95380 et seq.) The penalty of fifty-eight thousand dollars (\$58,000.000) over an unspecified number of days of violation is approximately \$1,500.00 per unit for each unit of failure to pay the annual implementation fee on time and failure to submit the annual report on time, and approximately \$4,000.00 per unit for each outstanding leak inspection and monitoring record.
- (31) Emissions. The provisions cited in Paragraph 6 (Allegations) above do not prohibit emissions above a specified level. Without more information, it is not practicable to quantify the excess emissions.

- (32) Aggravating and Mitigating Factors. The penalties in this matter were determined in consideration of all relevant circumstances, including statutory factors as described in CARB's Enforcement Policy. CARB considered whether the violator came into compliance quickly and cooperated with the investigation; the extent of harm to public health, safety and welfare; nature and persistence of the violation, including the magnitude of the excess emissions; compliance history; preventative efforts taken; innovative nature and the magnitude of the effort required to comply, and the accuracy, reproducibility, and repeatability of the available test methods; efforts to attain, or provide for, compliance prior to violation; action taken to mitigate the violation; financial burden to the violator; and voluntary disclosure. The penalties are set at levels sufficient to deter violations, to remove any economic benefit or unfair advantage from noncompliance, to obtain swift compliance, and the potential costs, risks, and uncertainty associated with litigation. Penalties in future cases might be smaller or larger depending on the unique circumstances of the case.
- (33) Confidential Business Information. CARB may have based this penalty in part on confidential business information provided by BakeMark or confidential settlement communications.
- (34) Effect of Settlement/Reservation of Rights. The following shall apply:

 - (i) Noncompliance with or enforcement of any provision of this Settlement Agreement.
 - (ii) Facts that were not disclosed by BakeMark to CARB.
 - (iii) Violation of the California Health and Safety Code and its implementing regulations, or other State laws, regulations, or permit condition(s) not expressly resolved in this Settlement Agreement.
