Truck Regulation Upload, Compliance and Reporting System (TRUCRS) Q&A

March 5th, 2024

Today's presentation will cover

- What is TRUCRS?

- What regulations are included in TRUCRS?

- Reporting deadlines

- Enforcement discretion notice summary

- Reporting overview

- Reporting Guides and Videos

- Questions

CARB

What is TRUCRS?

Truck Regulation Upload, Compliance and Reporting System (TRUCRS)

- Online reporting system.

- Owners of affected vehicles can report and update company, vehicle, and engine information to meet fleet reporting requirements, and

- Print a certificate of reported compliance.

CARB

What regulations are included in TRUCRS?

- Truck and Bus,
- Solid Waste Collection Vehicle, and
- Zero-Emissions Airport Shuttle Regulations,
- Advanced Clean Fleets.
- NOT Clean Truck Check (CTC) program
  - CTC reporting is done through a separate reporting portal on the CTC reporting webpage (https://ww2.arb.ca.gov/our-work/programs/inspection-and-maintenance-program/reporting-database).

CARB

Reporting Deadlines

Truck and Bus, Solid Waste Collection Vehicle, Zero-emissions Airport Shuttle Bus

- January 31, 2024

Advanced Clean Fleets

- Drayage Trucks – December 31, 2023

- High Priority Fleets – February 1, 2024

- State and Local Government Fleets – April 1, 2024

CARB

Enforcement Notice

- On December 28, 2023, CARB issued an enforcement notice for ACF
  - CARB will not take enforcement action on the drayage or high priority fleet reporting requirements or registration prohibitions until U.S. EPA grants a preemption waiver or determines a waiver is not necessary
  - CARB encourages fleets to voluntarily report and comply while the waiver request is pending and reserves all of its rights to enforce the ACF regulation in full for any period for which a waiver is granted or determined to be unnecessary
  - CARB will accept requests for the extensions and exemptions available under the ACF regulation during this period
- Once the waiver is granted or determined to be unnecessary, fleets may need to remove any vehicle from the California fleet that was not eligible to be added after January 1, 2024

CARB

Enforcement Discretion Notice in TRUCRS

ssl.arb.ca.gov says

The Advanced Clean Fleets Regulation (Regulation) - Drayage truck requirements deadline to report combustion-powered vehicles for drayage truck operation was December 31, 2023. Any combustion-powered vehicles added to the reporting system that were not previously reported by December 31, 2023, may be restricted from performing drayage services once the U.S. Environmental Protection Agency grants California a waiver for the Regulation pursuant to section 209 of the federal Clean Air Act or determines that no such waiver is necessary.

OK

- Any combustion-powered vehicles added into service in California in high priority or federal fleets after December 31, 2023, may be restricted from operating once the U.S. Environmental Protection Agency grants California a waiver for the Regulation pursuant to section 209 of the federal Clean Air Act or determines no such waiver is necessary. Once the waiver is granted or determined to be unnecessary, fleets may need to remove any vehicle from the California fleet that was not eligible to be added to the California fleet after January 1, 2024, or the fleet must elect to comply with the Zero-Emission Vehicle (ZEV) Milestone Option instead of the Model Year Schedule.

CARB

Accessing TRUCRS

https://ww2.arb.ca.gov/our-work/programs/truckstop-resources/truckstop

I reported in TRUCRS in previous years, what's changed?

- Updates have been made in TRUCRS to update reporting for the ACF regulation.

- You will need to provide information that you may not have previously reported.

- Company and the vehicle tabs have been updated.

- Certificate of reported compliance updated to include all regulations to which a fleet is subject.

- Previously reported information is still in your TRUCRS account.

- Will need to review the company and vehicle tabs and update information.

Creating account

Truck Regulation Upload, Compliance and Reporting System (TRUCRS)

Create New Account

To create a new account, please fill out the form below. After submitting your information, you will receive an email with the password for accessing your new account. If you are unsure whether your company already has an account, you can try looking up the account **here**, and then contacting the Diesel hotline for help accessing the account.

If you do not receive an email with your user name and password within 30 minutes, please call the DIESEL hotline at 1-866-6DIESEL (1-866-634-3735) for assistance. Please do not create an additional account.

This account is connected to the DOORS reporting system, and will allow you to access the reporting system for vehicles/equipment subject to the Off-Road and Large-Spark Ignition (LSI) Regulations (DOORS), the Truck and Bus Regulation (TRUCRS), and the Trailer Greenhouse Gas Regulation (TRUCRS-GHG). The same log in credentials could be used across the reporting systems for the three regulations, but **please use the respective login page when reporting for each regulation**.

Please note that by signing up for a TRUCRS account, you consented to receive electronic information from California Air Resources Board (CARB) and attested that you have the technological elements needed to properly use TRUCRS. By continuing to log in and use your TRUCRS account, you continue to give this consent and attestation. You can withdraw this at any time by contacting the Diesel hotline in writing.

* Required Information
Not sure if your company already has an account? Check to see if your company is already registered.
Avoid creating a duplicate account: If your company already has an account, please call the Diesel hotline to gain access to the account. You may still be responsible for any information that has been previously reported.

CARB

Certificate

CALIFORNIA
AIR RESOURCES BOARD

Certificate of Reported Compliance With:

Advance Clean Fleets Regulation

Truck and Bus Regulation

Issued to: ACF Fleet CHECK TEST

This certificate confirms that the fleet owner has attested under penalty of perjury that the statements and information they provided to the California Air Resources Board (CARB) are true, accurate, and complete regarding all relevant vehicles in the fleet required to show compliance. CARB hereby finds that the fleet listed has reported compliance with California Code of Regulations (CCR):

Title 13 CCR sections 2013 - 2016 (Advanced Clean Fleets Regulation)

Title 13 CCR 2025 (Truck and Bus Regulation)

If CARB subsequently finds that the statements and information that have been provided are not true, accurate, and complete, this certificate shall be effectively revoked and the fleet subject to noncompliance penalties.

This certificate is valid until **December 31, 2024**

Printed on 2024-03-01   TRUCRS Fleet Identification

Please note the following:

- Files uploaded must match the name exactly as shown below with underscores and no additional characters or numbers--case sensitive.

Use this block to upload your spreadsheet.	Upload Spreadsheet Files (Current Spreadsheet Version: 24.XX)
Instructions:	Upload file name: trucrs_ID_240064_vehicle_update.prn
1. Select the appropriate file name from the drop down menu	Choose File No file chosen
2. Click "Choose File" or "Browse" and locate the file you want to upload	Upload File
3. Click the "Upload File" button	

CARB

Applying for ACF Exemptions

- Must be requested via email through <u>TRUCRS@arb.ca.gov</u>.

- Cannot apply for any ACF exemption from your TRUCRS account.

- Email must include TRUCRS ID number, and all documentation required for the specific exemption being requested.

- If request is approved, CARB staff will send an email notifying you the extension was approved and will update your TRUCRS account to reflect the approved exemption.

- For ACF exemption information, visit the ACF fact sheets page, "Extensions and Exemptions" section.

CARB

Applying for the ACF 5-day pass

- 5-day pass grants a fleet a temporary pass that will allow a vehicle not compliant with ACF entry in California for 5-days.

- To apply, login to your TRUCRS account,

- From the "Vehicle Info" tab, under the "Flexibility Options" section you can select "5-Day Pass" from the drop-down menu.

- Enter the "Date of First Use", year-month-day, that the vehicle will be entering California.

- Each vehicle in the fleet can only use one 5-day pass per calendar year.

CARB

Frequently Asked Questions

1. Where do I find the engine family or engine model year?

2. Do I need to enter a vehicle family name when reporting a zero-emission vehicle?

3. Is it necessary to input an engine family name when reporting my vehicles?

4. Do I stay in the Low-Use Exemption, or do I update to the Backup Exemption? Can you explain the differences?

5. My vehicle has a short vin, why isn't TRUCRS not accepting?

6. Why is my TRUCRS account showing not compliant with Truck and Bus, but all reported diesel vehicles over 14,000 lbs. GVWR have 2010 or newer engines?
