Mr. Mike Stoker
Regional Administrator
U.S. Environmental Protection Agency
Region 9
75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Stoker:

The California Air Resources Board (CARB or Board) is submitting to the United States Environmental Protection Agency (U.S. EPA) a revision to the infrastructure portion of California's State Implementation Plan (Infrastructure SIP). The enclosed California Infrastructure SIP revision addresses requirements for the 8-hour ozone national ambient air quality standard (standard) of 0.070 parts per million (ppm) ozone.

As required under the Clean Air Act (CAA), the Infrastructure SIP revision addresses the elements set forth in CAA Section 110(a)(2) by documenting California's authorities, resources, and programs to implement, attain, and enforce the federal ozone standard. This Infrastructure SIP revision also addresses CAA Section 110(a)(2) requirements pertaining to California's contribution to nonattainment or interference of the maintenance of the 0.070 ppm ozone standard in other states. The Board approved the Infrastructure SIP (Enclosure 1) at a public meeting on September 27, 2018.

This Infrastructure SIP submittal includes one hard copy and one identical electronic copy of the following materials (enclosed).

1. California Infrastructure SIP revision (Enclosure 1).
2. ARB Resolution 18-31 approving the California Infrastructure SIP (Enclosure 2).
3. Public Meeting Notice evidence of the September 27, 2018, Board Meeting to consider approval of the California Infrastructure SIP (Enclosure 3).
4. Comments received in response to the Public Meeting Notice (Enclosure 4)
5. Statement regarding public availability (Enclosure 5).

Mr. Mike Stoker
